

By the time you leave you will:

- know how to create a screencast using [screencast-o-matic](#).
- have ideas on how to use screencasts in your classroom.
- know how to post to a back channel of discussion using [Today's Meet](#).
- have seen how to organize websites on a [Live Binder](#).

Open this site on your computer or mobile device:
www.todaysmeet.com/screencasts

Thanks for coming!
