

Safari Montage - Pilot

Logging into Safari Montage

1. Open Internet Explorer.
2. Type in the URL: **safari** (no need for http:// or www).
3. Use your ID and password you normally use to get on the network at school.

Helpful hint:

If you click on the **Tutorial** button, it'll play a short "how-to" video.

SAFARI Montage Media Player Detection

After successfully logging in, the SAFARI Montage server detects the presence of the SAFARI Montage Media Player. If no media player is found or an update to an existing media player is available, the user will be alerted by the following screen.

To install or update the SAFARI Montage Media Player, do the following:

1. Click the **Download** link.
2. When prompted, click **Run** to start the download.
3. After download is complete, click **Run** to begin the installation and follow the on-screen instructions.
4. After installation is complete, re-launch your browser.

The user may choose to bypass the download and installation of the media player by clicking the **Remind me later. Continue on to SAFARI Montage . . .** link.

If you skip the installation on the SAFARI Montage Media Player, please note that some media files inside the system may not play correctly. It is recommended that the user installs the SAFARI Montage Media Player for optimal performance.

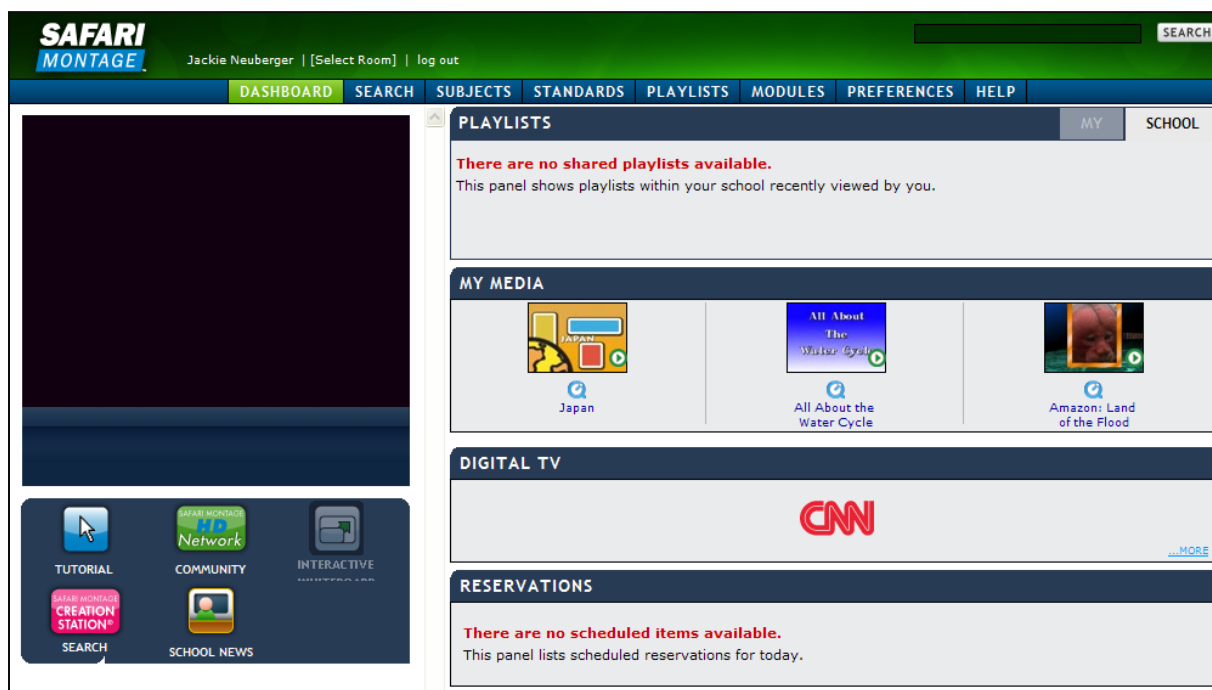

Navigating the Program

The links to navigate the program are found across the top of the first screen.

DASHBOARD

The Dashboard button brings up the Dashboard page. From here, you can view videos, as well as see a list of recent playlists, your media, streaming content and received content.

Playlists	The Playlists section displays the five most recently viewed playlists and is broken into three categories: My Playlists, School Playlists and District Playlists.
My Media	The My Media tab shows the five most recently viewed media and is sorted by starting with the last viewed item.
Digital TV	The Digital TV section displays up to five digital TV streams available for viewing. If additional streams are available, click on the '...MORE' link to see these streams.
Reservations	Currently not a function that is available.

The Quick Launch section displays icons for items that may be commonly used in SAFARI Montage. These tasks would include viewing school news, uploading content via Creation Station™ or accessing an active whiteboard.

Searching the Program

Search by Keyword:

1. Press **Search** in the top menu bar.
2. Type in a word or phrase for your topic.
3. If you only want a particular type of media, unclick the **Media Types** you do not need.
4. Your search can also be restricted to particular **publishers, copyright** or **grade levels** using the drop-down textboxes.

The search results will be separated by the following tabs:

Videos These are the videos *within the Safari Montage library*.

Images These images may be from the *Safari Montage library* or *uploaded by the teacher*.

Audio These sound files are from the original *Safari Montage library* and *uploaded audio files*.

Interactive Materials from the *Safari Montage library* or *uploaded by the teacher*.

Documents Materials *uploaded by the teacher* using word processing, drawing, presentation, or other forms of programs not already included in the tabs. **(not part of pilot)**

Web Materials *uploaded by the teacher*. **(not part of pilot)**

eBooks Materials *uploaded by the teacher*. **(not part of pilot)**

Helpful search hints:

- Keyword searches are not case-sensitive. **Capitalization** does not matter. Searching for *japanese school* is the same as searching for *Japanese School*.
- A space between keywords is equivalent to the word **and**. For example, entering the phrase *japanese school* is like saying, "Show me all the videos that contain the words *japanese* and *school* (but not necessarily next to each other)."
- To search for an exact phrase, enclose the phrase in quotation marks. For example, entering the phrase *"japanese school"* will display videos that contain the phrase *japanese school* exactly as it appears between the quotes.
- The above methods can be combined to help refine your results. For example, a phrase search can be combined with a keyword search by entering *"japanese school" secondary*. This would display all titles that contain the phrase *Japanese school* and the keyword *secondary*.

TEACHER'S GUIDE QUIZ

My Family From Japan

Media: Running Time: 13 min 26 sec Grades: K to 4

Meet Keisi, an 11-year-old boy living in Japan's capital city of Tokyo with his parents and two older sisters. Working hard is a way of life for Keisi's family. Like most Japanese children, Keisi has private school lessons after his regular school day, and returns home by 9:30 p.m. for dinner and homework before bedtime. Because his family is so busy, Keisi values their time together on the weekends. He especially enjoys playing ball with his father, going to the park with his sisters and occasional visits ...

You have found it, now what?

Always preview the material you are intending to use for your lesson. Some parts of any video may not be needed for the topic or concept. Click on the title of the video to expand the description of that video. Each video is divided according to key concepts.

Use the down arrow icon  expand the chapters for a brief description of each chapter including the duration of each segment. To view only the appropriate segments of the video, press on the play icon  each portion. The **add to playlist** icon  will be explained under **Creating Playlist** in this handout.

Creating a Playlist

The Playlist screen can be broken down into three sections: **Folders**, **Search** and **Creation** and **Playlists**.

Helpful hints:

- Playlists can be built to support a lesson or they can serve independently as a mini lesson.
- A Playlist is simply a list of content titles or segments that have a related curriculum theme or objective.
- Playlists may contain content titles, specific chapters within media titles, key concepts within chapters, as well as personal bookmarked segments and notes.
- Playlist items may be sorted in any order you choose.
- Playlists can be organized in a familiar folders atmosphere.
- Playlists can be easily moved from one folder to another by dragging and dropping.
- Playlists can be searched based keyword and grade range.

To add a video to your playlist

1. While viewing the search results, click on the  button in the top menu bar.
2. Type in the **name** you wish to give your new playlist.
3. Put a **brief description** of the playlist in the Comments textbox. This will assist locating the playlist in a search as well as describe the content.
4. If you want to share your playlist, you'll need to click on the drop-down menu to confirm.
5. Click on the **Add to New** button.
6. Repeat steps 1-5 to add more materials to your playlist.
