Q8. What technology services are we doing well?

1	Computers. We don't have the issue of not having computers for research, like last year.	Apr 3, 2012 9:46 PM
2	Having lots of computers that have updated applications like Word or Excel.	Mar 28, 2012 6:32 AM
3	There are sufficient computers and laptops for use during class, study halls, and off-periods. These computers generally work in a timely and efficient manner. The infinite campus iPhone and Android apps are very helpful. Easy access to both the S and H drives is available to students using their personal computers.	Mar 20, 2012 3:18 PM
4	?	Mar 20, 2012 2:57 PM
5	I like moodle but I think everyone should have one!!! I also like Destiny Quest.	Mar 8, 2012 6:48 PM
6	the projectors in every room	Mar 7, 2012 8:04 AM
7	Microsoft Dell Apple HP	Mar 5, 2012 2:49 PM
8	Accessible computers.	Mar 3, 2012 12:41 PM
9	Keeping computers updated with the latest (I think) programs and such. And having the online Social Studies textbook.	Mar 3, 2012 10:44 AM
10	Fast computer speed	Mar 2, 2012 5:27 PM
11	Keeping the laptops running, making the wifi easy to access.	Mar 2, 2012 1:23 AM
12	Infinite Campus is the best thing since sliced bread, I love how accessible it is!	Mar 2, 2012 12:45 AM
13	Computers	Mar 1, 2012 11:50 PM
14	I pads computers and laptops	Mar 1, 2012 9:11 PM
15	H-drive hard drive amount Home access to network drives	Mar 1, 2012 8:04 PM
16	Access h drive and s drive from home is awesome.	Mar 1, 2012 7:39 PM
17	eEverything is decent. Upgrade to Google Chrome would be better.	Mar 1, 2012 6:21 PM
18	The infinite campus app is really cool!!!! Im glad you added that	Mar 1, 2012 6:17 PM
19	Infinite Campus is a solid and reliable tool. It also helps that teachers, currently, have the decision to allow the use of technology in their class at a time of their choosing.	Mar 1, 2012 4:36 PM
20	Microsoft	Mar 1, 2012 12:11 PM
21	Computers	Mar 1, 2012 11:59 AM
22	Online school drives	Mar 1, 2012 11:42 AM
23	We were excited about the IPAD introduction we are fortunate to have one of our kids able to use it	Mar 1, 2012 8:57 AM

Q8. What technology services are we doing well?

24	Computers	Mar 1, 2012 8:30 AM
25	None	Mar 1, 2012 8:17 AM
26	I don't know	Mar 1, 2012 8:10 AM
27	The I Pads The Computers Are Really Slow	Mar 1, 2012 8:06 AM
28	computeres	Feb 29, 2012 9:25 PM
29	a lot of computers which shows there's a lot of access	Feb 29, 2012 6:04 PM
30	iPads, but we only have one in our classroom	Feb 29, 2012 5:02 PM
31	Actually to tell ypu the truth. Most of the computers we use take a lot of time to boot up. We had IPads offered to us, but kids in our class aren't given the chance to use them. Also printing is a big problem. The maximum amout of pages to print at one time doesn't help kids and also being able to print in more than 5 pages on one document doesn't help. Especially to kids on the debate team who have to print more than for there cases.	Feb 29, 2012 2:30 PM
32	Infinite campus; Edmodo is by far the best communication and education tool.	Feb 29, 2012 2:23 PM
33	I have sent 3 emails this year and each time I did not receive a response. I confirmed with teachers and they state they did not receive.	Feb 29, 2012 10:24 AM
34	You are not doing well with the technology	Feb 29, 2012 9:29 AM
35	The computers and campus portal.	Feb 29, 2012 8:22 AM
36	we have computers that are at a moderate speed.	Feb 28, 2012 10:56 PM
37	Computers, projectors	Feb 28, 2012 10:47 PM
38	S Drive and Infinite Campus	Feb 28, 2012 9:47 PM
39	The projector	Feb 28, 2012 9:43 PM
40	Online classes	Feb 28, 2012 9:31 PM
41	There are lots of computers and rarley are they broken.	Feb 28, 2012 7:02 PM
42	The projectors are used frequently and effectively. A greater effort is being made to use laptops as well albeit a not very effective effort.	Feb 28, 2012 6:56 PM
43	Every	Feb 28, 2012 6:07 PM
44	I don't use technology that often so I wouldn't know.	Feb 28, 2012 5:54 PM
45	The computers	Feb 28, 2012 5:11 PM
46	Infinite Campus	Feb 28, 2012 4:34 PM
47	There are enough laptops and desktops.	Feb 28, 2012 4:07 PM

Q8. What technology services are we doing well?

48	Ther are almost always computers and electronics in general open to a student whenever they need it	Feb 28, 2012 3:13 PM
49	wi-fi	Feb 28, 2012 2:42 PM
50	The projectors are good.Really, when it comes to technology, it's about the teachers and how knowledgable/passionate they are about the subject that makes far more of a difference than technology.	Feb 28, 2012 2:18 PM
51	Edmodo, online S: Drive and H: Drive	Feb 28, 2012 1:42 PM
52	Home access to the drives	Feb 28, 2012 12:36 PM
53	The addition of the new laptops has greatly improved the access to computers schoolwide.	Feb 28, 2012 11:25 AM
54	None	Feb 28, 2012 11:18 AM
55	None	Feb 28, 2012 11:11 AM
56	Available computers and laptops	Feb 28, 2012 11:08 AM
57	Projectors	Feb 28, 2012 10:40 AM
58	Lap tops	Feb 28, 2012 10:17 AM
59	Infinite Campus. Moodle. Tumblr for assignments. All really cool ways to do assignments and keep updated.	Feb 28, 2012 10:03 AM
60	Nothing really, the computers are really slow, we need apple computers not hp	Feb 28, 2012 9:35 AM
61	Laptops in class, projector, internet videos in class, Type to Learn works.	Feb 28, 2012 9:28 AM
62	Computers	Feb 28, 2012 8:26 AM
63	Wireless Internet, Availability of computers and laptops, good access to S: and H: drives from home	Feb 28, 2012 8:25 AM
64	Computer labs	Feb 28, 2012 7:58 AM
65	ic, moodle	Feb 28, 2012 7:51 AM
66	computers	Feb 28, 2012 7:47 AM
67	Staying connected through Edmodo and my classes that have Twitter accounts have really helped me stay organized this year.	Feb 28, 2012 7:40 AM

Q9. What suggestions do you have for improving district technology services?

1	Having more teachers post things or get them graded on time. (Mrs. Krzyzcskowski - Team I Social Studies)	Apr 3, 2012 9:46 PM
2	Having it so that if you log on, it won't take such a long time. It sometimes takes 5 minutes for a computer to log on.	Mar 28, 2012 6:32 AM
3	Students using their personal computers can currently access the S and H drives, but they cannot access the printers. Thus, if a student needs to print, they must log into a district computer whether or not they use a personal computer. Allowing students to print via their personal computers at school through the school's wifi should be considered. If security and excess printing is an issue, a system could be developed where if a student would like to print, they would need to obtain an access code from the ladies in the library. This privilege should be revoked from students as necessary.	Mar 20, 2012 3:18 PM
4	?	Mar 20, 2012 2:57 PM
5	EVERYONE SHOULD GET A MOODLE	Mar 8, 2012 6:48 PM
6	More time to work with Ipads	Mar 7, 2012 5:03 PM
7	the lap tops suck they are awful and need an actual mouse to use. and the library is a very corrupt place you do not need 3 librarians.	Mar 7, 2012 8:04 AM
8	Make more technology help available- one guy cannot help all two thousand people	Mar 5, 2012 4:43 PM
9	If we do more technology we should use it in classrooms and not just in a computer lab and even then we don't go to the computer lab or get labtops that much.	Mar 5, 2012 2:49 PM
10	Fix the teacher's emails. Half the time student sent emails never go through because the spam blocks them out.	Mar 3, 2012 12:41 PM
11	Using things like Edmodo. It's easy to communicate, see assignments, and to just have fun.	Mar 3, 2012 10:44 AM
12	The new computers are REALLY SLOW!!! it has actually taken me 20 minutes to log in before so if possible please try to make them faster	Mar 3, 2012 9:09 AM
13	Improve connection speed of servers/computers over upgrading laptops	Mar 2, 2012 5:34 PM
14	More technology available to kids.	Mar 2, 2012 5:27 PM
15	None.	Mar 2, 2012 1:23 AM
16	Blocking social networking sites like Twitter and Pinterest would make school a lot easier to focus	Mar 2, 2012 12:45 AM
17	Faster internet service	Mar 1, 2012 11:50 PM
18	I pads and faster laptops	Mar 1, 2012 9:11 PM
19	Use Edmodo more	Mar 1, 2012 8:04 PM

Q9. What suggestions do you have for improving district technology services?

20	Allow technology to be used in the hallway	Mar 1, 2012 7:39 PM
21	Don't let our emails to our teachers go to spam, let sophomores be able to go to library to get advantage of all the technology that we have because right now we only get to use it in the classroom.	Mar 1, 2012 6:21 PM
22	Axcessing the h drive from home is a pain in the butt the way it is set up. Any way it could be changed to be easier?	Mar 1, 2012 6:17 PM
23	Make computers load faster and log on the first time you sign on	Mar 1, 2012 4:42 PM
24	Upgrade your computers. At times it seems as if my iPhone has more RAM. Also, do not ban the use of personal technology- it is our only resource for quick, last minute research and interpersonal communication.	Mar 1, 2012 4:36 PM
25	Our computer lab computers are too slow things just run soooo slow that sometimes i half to convert files to linux at school and taause the computers run soo slow. ke them home and finish them even though we were supposed to finish them at school bec	Mar 1, 2012 3:14 PM
26	Stop having such a spam filter on teacher emails. I can never reach them promptly.	Mar 1, 2012 12:51 PM
27	To get Mac apple computers	Mar 1, 2012 12:11 PM
28	More frequent updates	Mar 1, 2012 11:59 AM
29	Speed. The school computers are incredibly slow on log in and in the first couple minutes of loading a program or after log in... On a regular day's off period, it can take a fourth (sometimes a third, if there are a lot of people trying to get on) of the class just to log in and get Word started and ready to go to type an essay. That leaves you with 20-30 minutes to actually work... If there was a way to locally manage the computers (library, lab 1, lab 2, etc...), that could make the computers faster. It would be expensive, yes, but students (and staff) would be much happier with the speed and quality of the computers! The new Win 7 computers are faster (when running programs, etc..) but they still are very limited by the connection speed of our network.	Mar 1, 2012 9:46 AM
30	Keeps getting better, however the lunch info from nutrition services needs to have pricing attached for VHS kids, often times we are charged for bags of hamburger buns?? I never get a call back regarding these charges very frustrating	Mar 1, 2012 8:57 AM
31	Other forms of technology-more things like ipads in class.	Mar 1, 2012 8:30 AM
32	Don't waste money on cheap technology.	Mar 1, 2012 8:17 AM
33	Stop using paper and use eelectronics	Mar 1, 2012 8:10 AM
34	I can never log onto the laptops, there aren't enough servers	Feb 29, 2012 11:11 PM
35	strengthen the wifi, it always seems to not work when i am in fashion class (room 319) also the H:Drive sometimes fails which is a problem when i have homework on it.	Feb 29, 2012 9:25 PM

Q9. What suggestions do you have for improving district technology services?

36	More advancements, better programs, need to work on loading faster	Feb 29, 2012 6:04 PM
37	Giving more advanced technology and more features like in the library.	Feb 29, 2012 5:02 PM
38	I would suggest getting more efficient technology and and be able to print more paper.	Feb 29, 2012 2:30 PM
39	USE EDMODO MORE	Feb 29, 2012 2:23 PM
40	Keep grading timely and the teachers should put effort in to commenting on our kids process...both positive and negative. No true line of communication with teachers. Only at conferences and at that point we are rushed with lines of people behind us.	Feb 29, 2012 10:24 AM
41	I think that students should be allowed to bring laptops to use for classes and to take notes on. This would teach responsibility because if you use it wrong then you dont learn and students would not use as much paper or have to carry as much stuff.	Feb 29, 2012 8:22 AM
42	The laptops are super slow and the wireless is not that great. Student emails are always spammed so teachers never get them	Feb 28, 2012 11:02 PM
43	let students print little bit more freely especially color, its for school not for us, why are teachers so strict about it and make us color them? Also, computers are still slow.	Feb 28, 2012 10:56 PM
44	I know that my latin teacher started using an Ipad to go along with class, this really helped with translating and I think it would be helpful in many classrooms. The really tiny laptops that Valley bought a lot of, barely work. This isn't just because of the server being overloaded, they simply just don't work. I would recommend (may cost a bit extra) a good set of laptops. They would last longer anyways so in the long run it would end up being cheaper.	Feb 28, 2012 10:47 PM
45	Less wait during log in time	Feb 28, 2012 9:47 PM
46	Make the laptops a little bit faster	Feb 28, 2012 9:43 PM
47	Some teachers use computer activites and assignments instead of teaching. They assign computer assignments and never do any actual teacing. This is a much harder way of learning and it has made this class much harder.	Feb 28, 2012 7:02 PM
48	Making it a larger part of the classroom in general. Specifically, it could be used more frequently for note-taking by students also using technology to help with classroom activities or have homework assignments that are done on computers. Currently the focus is more oriented towards "full-class" technology like the projector versus "individual" technology like laptops.	Feb 28, 2012 6:56 PM
49	Use more technology	Feb 28, 2012 6:07 PM
50	Don't rely so heavily on technology services and hand out paper copies of the information in class.	Feb 28, 2012 5:54 PM
51	Get rid of the lap tops that are available now	Feb 28, 2012 5:11 PM

Q9. What suggestions do you have for improving district technology services?

52	None	Feb 28, 2012 4:34 PM
53	faster internet	Feb 28, 2012 4:07 PM
54	Allow downloads by students for purposes such as video projects	Feb 28, 2012 3:13 PM
55	I hate the messages sent to parents with missing assignments.	Feb 28, 2012 2:42 PM
56	The infinite campus app is incredibly slow, and it also doesn't show an option for missing assignments. I don't know if wdmcs has control over that, though. The mircophones are ineffective. Teachers rarely use them and when the do, they make loud, painful screechings. The real issue Valley needs to focus on hiring more qualified teachers. Just because a teacher is old & has been in the district for a long time DOES NOT MAKE THEM QUALIFIED. Please, as one of the best schools in Iowa, you owe it to us to hire better teachers.	Feb 28, 2012 2:18 PM
57	Speed up Internet server	Feb 28, 2012 1:42 PM
58	Sometimes I am very frustrated when I can't get on facebook because I use it as a communication tool for groups that I lead. But at the same time I understand that teachers want the computers to be used for homework and many students would abuse the access to facebook. Maybe you could find some compromise, such as only blocking it on school computers and not on personal devices using the schools internet... if that's possible. Also, while there are more computers available, many of them are exceedingly slow or randomly turn off or go to unusable screens without warning. This is quite frustrating when you are under time pressure to finish an assignment.	Feb 28, 2012 11:25 AM
59	Prompt teachers to better utilize the grade book, improve access to computers and rectify the issues with logging in to and using technology	Feb 28, 2012 11:18 AM
60	Usage of debit cards	Feb 28, 2012 11:11 AM
61	Oftentimes I've found software on Valley computers isn't compatable with other software I use on my PC at home, such as Excel or Logger Pro (even though I am aware Logger pro is an old program)	Feb 28, 2012 10:52 AM
62	Computers- Load slowly. Solution?	Feb 28, 2012 10:40 AM
63	Smart boards. Let use wifi on phones...	Feb 28, 2012 10:17 AM
64	Getting macs or other computers then the same old cheap hp computers	Feb 28, 2012 9:35 AM
65	It's OK the way it is.	Feb 28, 2012 9:28 AM
66	Allow students to text and use their phones and iPods during lunch and study halls and during the passing times during the day!! It will help them build better relationships with their friends and non friends. Also if there was a family emergence and your family member texted you or called you, you wouldnt no unless you had your phone on. Plus students already use their phones during classes, it might as well be okay.	Feb 28, 2012 8:26 AM
67	There are too many printing restrictions, computers take a while to load and logon, and the computers are generally slow. Also, I am not able to use e-mail	Feb 28, 2012 8:25 AM

Q9. What suggestions do you have for improving district technology services?

apps on my laptop in school.

68	Have the iPads checked out like laptops.	Feb 28, 2012 7:58 AM
69	interactive things	Feb 28, 2012 7:47 AM
70	Something that would help especially the AP Environmental class would be more iPads provided when we do field work. Having one was great, but having more would really benefit the class.	Feb 28, 2012 7:40 AM
