Q9. What do you see as the advantages or benefits for why we should investigate 1:1 ? (a mobile device for students)

1	We could have the use of things like calculators and dictionaries at the tips of our fingers.	May 5, 2013 7:36 PM
2	increased accessibility, efficiency	Apr 29, 2013 9:39 PM
3	Easier to carry around. Homework assignments easier to complete.	Apr 25, 2013 9:45 PM
4	Easier for teachers to get in touch with students in the case of an absence either by the teacher or student. Easy to post assignments for students. Cuts way down on paper use which solves the clutter problem and it's good for the environment.	Apr 25, 2013 7:49 PM
5	I think it would be better because it provides access to teachers and to homework without the waste of paper	Apr 25, 2013 6:52 PM
6	More opportunities to learn and easier acces to homework that is fo und in and on the internet or other places. Higher ability to work from home for everyone.	Apr 25, 2013 3:10 PM
7	Texbook could be used electronically and more people are using technology these days.	Apr 25, 2013 2:44 PM
8	maybe more personalized education	Apr 25, 2013 2:34 PM
9	Kids will always have what they need in class. Kids will be more interactive with it.	Apr 25, 2013 11:54 AM
10	easier for students to do work at home then work on the same thing at school	Apr 25, 2013 9:21 AM
11	ipads	Apr 25, 2013 8:47 AM
12	Because if there is ever an emergency we can contact our parents and some students are poor and unable to have a phone.	Apr 24, 2013 10:25 PM
13	No excuses for not having typed homework done on time	Apr 24, 2013 7:33 PM
14	don't have to carry all those books around and could make students more interested in learning.	Apr 24, 2013 4:30 PM
15	Keeping up with the times, more current.	Apr 24, 2013 11:06 AM
16	Access to IC anywhere would be helpful for students.	Apr 23, 2013 9:33 PM
17	i dont know	Apr 23, 2013 3:47 PM
18	All students, regardless of wealth, would be able to check grades, email teachers, and research topics.	Apr 23, 2013 3:44 PM
19	all of our homework would be in one spot, wouldnt lose it, easily check grades, have access to online things all at once, if u dont have a computer at home how are you supposed to do anything? these mobile devices would get rid of that dilemma.	Apr 23, 2013 10:54 AM
20	I moved form a school that provided Macbooks to all students. We had more	Apr 23, 2013 10:13 AM

Q9. What do you see as the advantages or benefits for why we should investigate 1:1 ? (a mobile device for students)

	learning opportunities and it made studying and doing homework at home a lot easier. Plus we didn't have to worry about booking computers or anything because we all had our own.	
21	Providing a mobile technology device would make the student's life a lot easier. With a computer, studying would be a lot easier, and it would provide a computer to someone without one at home.	Apr 23, 2013 10:12 AM
22	It will help me get my work done.	Apr 23, 2013 8:51 AM
23	All school papers would be in one spot and you could always just grab it and show teachers what you have been doing!	Apr 23, 2013 8:24 AM
24	It could help students who don't otherwise have things.	Apr 22, 2013 9:32 PM
25	Every student would have the same opportunity to use technology rather than just the students who have the money to buy the high end phones.	Apr 22, 2013 12:49 PM
26	Us students don't have to carry all those text books. we don't cut down as many trees.	Apr 22, 2013 10:05 AM
27	Less paper. Less textbooks costs. Lighter backpacks (better student posture). Easier to research.	Apr 21, 2013 10:14 PM
28	Less paper, cheaper textbooks, lighter backpacks,	Apr 21, 2013 10:13 PM
29	Some students may not have computers at home - sounds as if this could help them. Others may not have access to computers same as above would apply.	Apr 21, 2013 2:46 PM
30	Equality	Apr 20, 2013 3:12 PM
31	I can use it anytime it's handy! Also when computers aren't available at school. I wouldn't have to wait!	Apr 20, 2013 9:10 AM
32	None	Apr 20, 2013 1:26 AM
33	Easier for homework	Apr 19, 2013 7:47 PM
34	No teacher would question the availability of having technology in their classrooms.	Apr 19, 2013 11:26 AM
35	Good for families that don't internet at home but do on their mobile devices	Apr 19, 2013 10:36 AM
36	1. students do not need to carry heavy textbooks 2. students are more involved in their learning	Apr 19, 2013 8:50 AM
37	it could benefit the students by providing a mobile device for them & it could help them be more proactive in school work depending on what it is used for.	Apr 18, 2013 10:04 PM
38	Access to technology, ability to research, not having to wait around for other classes to finish with a laptop cart	Apr 18, 2013 9:40 PM
39	We should embrace technology as it is the future of the world.	Apr 18, 2013 9:33 PM

Q9. What do you see as the advantages or benefits for why we should investigate 1:1 ? (a mobile device for students)

40	More technology for them to learn about.	Apr 18, 2013 9:02 PM
41	Less books to carry around	Apr 18, 2013 9:02 PM
42	More freedom	Apr 18, 2013 8:24 PM
43	Removing the need for students to purchase their own technology and bring it to school and then not being able to use it. Reducing paper and ink costs (for district and students) by allowing electronic submission of assignments.	Apr 18, 2013 7:55 PM
44	It's where we are going and they need to be prepared	Apr 18, 2013 7:31 PM
45	Dont have to worry about sharing a laptop or ipad	Apr 18, 2013 7:15 PM
46	Not All Students Have AccessTo Technology At Home	Apr 18, 2013 7:12 PM
47	A chance to practice independence.	Apr 18, 2013 7:04 PM
48	You get to see what improvements are needed to make school technology better	Apr 18, 2013 6:55 PM
49	It gives them access to online resources to use for class projects and homework.	Apr 18, 2013 4:59 PM
50	well ya see lots of stuff	Apr 18, 2013 4:30 PM
51	We would have less books to carry, and we would be more organized. It would be easier to do homework, because you would have all your resources there with you in one tablet or laptop. I think kids would be more motivated to get their work done if it meant they got to use a laptop or tablet all for themselves!	Apr 18, 2013 3:54 PM
52	Some students don't have access to devices that are becoming essential. E-readers would save money over time. Text books are expensive/weighty. if we have a 1 :1 program, our district will draw in more students. We will appear to be a progressive school. Real estate agents will sell more houses in WDM district.	Apr 18, 2013 3:21 PM
53	students would have computer available to them at all times	Apr 18, 2013 3:10 PM
54	I have friends that go to Johnston that have 1:1, and they have a lot easier time doing homework and do their homework as well.	Apr 18, 2013 2:53 PM
55	All students would have a device available for them where as now, some students don't have that. I think it would be nice to have something available in case the home computer was having problems or something. It would also allow teachers to send students information whether through an app or program and know that the students should have gotten it.	Apr 18, 2013 2:51 PM
56	Does providing this program help students with their studies How are student's grades affected Is the usage monitored and the resources/ apps that would be available to the devices	Apr 18, 2013 2:48 PM
57	i think that students would be more organized and it would make class more interesting.	Apr 18, 2013 2:48 PM
58	I see it as being a huge advantage for keeping student work in one place. if i	Apr 18, 2013 2:47 PM

Q9. What do you see as the advantages or benefits for why we should investigate 1:1 ? (a mobile device for students)

	student is provided with a mobile device, such as a laptop or ipad, it is easier for the student to transfer work from school to home and keep it in one place rather than transferring it from the H-drive or Flashdrive.	
59	Students can be more focused and no peers to interfere. Students can learn with more personalized help.	Apr 18, 2013 2:46 PM
60	it would allow students to be more productive with assignments that require technology. Some may not have access to technology outside of school.	Apr 18, 2013 2:45 PM
61	Students will always have access to their S and H drives as well as infinite campus. Students will be able to complete certain assignments such as essays easier.	Apr 18, 2013 2:45 PM
62	Help the students achieve higher grades in classes.	Apr 18, 2013 2:44 PM
63	So we can use those to take notes while the teacher is talking instead of having to handwrite them, therefore we would be provided more time in class.	Apr 18, 2013 2:44 PM
64	everyone could easily use a computer less paper used books less expensive	Apr 18, 2013 2:43 PM
65	Not sure, i mean every person must have a cellphone that they used, either it is a smartphone or just a normal cellphone for calling and massaging, if the district provide mobile devices for students, there might be a glitch between those two especially the ones that loves to text :) and why mobile, change the small HP laptop to a bigger one is better	Apr 18, 2013 2:43 PM
66	Say a kid typed his essay for a class, but forgot to print it off. Don;t worry, just take the laptop out of your backpack, log on, and print it off.	Apr 18, 2013 2:42 PM
67	everyone is capable of turning things into turnitin.com or saving stuff on a student drive and typing will be a lot easier thanks to one to one.	Apr 18, 2013 2:42 PM
68	More technology	Apr 18, 2013 2:24 PM
69	Underprivileged youth would now have access. Technology would be more integrated into the curriculum. It would level the playing field.	Apr 18, 2013 2:10 PM
70	Every classroom then has some form of technology that they can use. Don't have to sign up for computer labs or carts, etc.	Apr 18, 2013 2:08 PM
71	Not worrying about renting computer labs or having them double-booked.	Apr 18, 2013 1:58 PM
72	none	Apr 18, 2013 1:57 PM
73	It would be really nice to have technology incorporated to the classroom. I use my laptop now, but it is not always encouraged by the teacher.	Apr 18, 2013 1:57 PM
74	There would be less "logging in" problems, and each student would have their files and work with them at all times. There wouldn't have to be computer labs to rent out or save specifically for a class.	Apr 18, 2013 1:57 PM
75	Kids who don't usually have technology available to them at home would have it	Apr 18, 2013 1:57 PM

Q9. What do you see as the advantages or benefits for why we should investigate 1:1 ? (a mobile device for students)

	available. Otherwise, I don't see a real need.	
76	I understand that it will give students a portable device to work with. Maybe many additional programs can be used for homework and projects. It could help a whole class collaborate together on learning.	Apr 18, 2013 1:57 PM
77	less fortunate students would have access to the programs	Apr 18, 2013 1:57 PM
78	GIVES THE STUDENTS MORE MOTIVE TO COMPLETE WORK, MORE ACCESS TO CORRECT INFORMATION, AND MAKES THEM ENJOY THE SCHOOL PROCESS EVEN MORE.	Apr 18, 2013 1:57 PM
79	Thatd be kinda chill	Apr 18, 2013 1:56 PM
80	---More eco-friendly allowing teachers to go paperless ---Students have access to the internet and those resources at all time ---Some students don't have internet access at home or access to Microsoft Word, then it could be difficult to complete assignments in the allotted time period.	Apr 18, 2013 1:56 PM
81	Fewer textbooks to carry around, and providing a different way of learning the material.	Apr 18, 2013 1:56 PM
82	you always have all your assignments and documents with you and you won't have to worry about transferring documents from computer to computer also then each class won't have to check out laptops	Apr 18, 2013 1:55 PM
83	More convenient. Quick and easy access to internet for all students, espically students without web enabled phones.	Apr 18, 2013 1:54 PM
84	more students get work done some students don't have access to internet and computer labs can be used as extra classrooms and space	Apr 18, 2013 1:54 PM
85	more access to information study materials on the internet	Apr 18, 2013 1:54 PM
86	more access to school drives	Apr 18, 2013 1:53 PM
87	Cheaper for students, easier to get work done at home; teachers can do more online stuff instead of a bunch of packets that will inevitably get lost.	Apr 18, 2013 1:53 PM
88	I think it would provide a more reliable source of technology. It would ensure that each student had the resources needed.	Apr 18, 2013 1:53 PM
89	Easier access to materials Prepping students for the 21st century workplace	Apr 18, 2013 1:53 PM
90	I think that it would be a great opportunity to involve technology in the classroom. This would be helpful in learning what tools are out there for using.	Apr 18, 2013 1:53 PM
91	Less paper used Environmentally friendly at least for a resource consumption standpoint	Apr 18, 2013 1:53 PM
92	Greater student accountability	Apr 18, 2013 1:52 PM
93	I WILL REFUSE TO USE MOBILE TECHNOLOGY!	Apr 18, 2013 1:51 PM

Q9. What do you see as the advantages or benefits for why we should investigate 1:1 ? (a mobile device for students)

94	paper less system - equality for all including economically disadvantaged	Apr 18, 2013 1:43 PM
95	We can easily check what we got on test and if we need to research something we have something right in our hand to do it with...schools need to teach more about technology because that it was our work like and mainly life will be of when we get out of high school	Apr 18, 2013 1:39 PM
96	huge advantages, i think it would improve grades, save paper, and help progress the school as a whole. Times are changing as technology keeps getting better. My girlfriends school is all 1:1 they are assigned a laptop every year to use all year. they do everything on there laptops, and she loves it.	Apr 18, 2013 1:12 PM
97	it would teach responsibility and would encourage students to be more organized.	Apr 18, 2013 1:10 PM
98	teachers would be able to assign more out of class work knowing that everyone had the same resources to complete it.	Apr 18, 2013 1:08 PM
99	You know everyone has a way to access the internet. No one can "lose" a homework assignment. It gives incentive to do homework if you already are on your techonological device.	Apr 18, 2013 1:08 PM
100	It will allow for equal opportunities and new learning techniques.	Apr 18, 2013 1:07 PM
101	Note taking would be more efficient, uses less paper, would help students stay organized with different documents.	Apr 18, 2013 1:07 PM
102	Students will be able to access the school drives more easily. Students who do not have computer access at home will be at a benefit. It may be easy to keep in contact with teachers.	Apr 18, 2013 1:06 PM
103	more incentive todo homework, easier to do homework	Apr 18, 2013 1:06 PM
104	It would allow students to have access to a mobile device with wifi that could benefit their education in school and at home.	Apr 18, 2013 1:06 PM
105	accessable resources	Apr 18, 2013 1:05 PM
106	Easy access to internet and other utilities	Apr 18, 2013 1:05 PM
107	None, vast majority of students have some form of access to a home computer of some sort and it seems like giving a laptop or iPad to some students may be a risk that isn't worth it in the long run.	Apr 18, 2013 1:05 PM
108	Faster log-ins	Apr 18, 2013 1:04 PM
109	none, its a distraction	Apr 18, 2013 1:04 PM
110	laptop	Apr 18, 2013 1:04 PM
111	More efficient. No stress with distribution.	Apr 18, 2013 1:04 PM
112	All students will be able to use a computer and be provided resources to study	Apr 18, 2013 1:02 PM

Q9. What do you see as the advantages or benefits for why we should investigate 1:1 ? (a mobile device for students)

	material	
113	-more equal access to technology and information -more realistic to the real world and better to prepare students -opportunity to collaborate with other students	Apr 18, 2013 12:52 PM
114	accessibility	Apr 18, 2013 12:49 PM
115	easier access to resources. equal oppurtunities for all students	Apr 18, 2013 12:28 PM
116	NOTHING	Apr 18, 2013 12:22 PM
117	It will be our own personal computer that would have everything each student needs on it. We would be able to acess our files easier, when infinate campus goes down not only are we unable to look at our grades but we are unable to acess files from home, and having a device that has its own storage device instead of a univeral one provided by the discict in this case would eliminate the problem. Being able to have a device to use can also be good for classroom education. We could do more interactive learning activities and would have the power to gather more information at our disposal. It will help with educational purposes	Apr 18, 2013 11:33 AM
118	better note taking and research	Apr 18, 2013 11:32 AM
119	This would give everyone access to the internet and an easy source to access infinite campus, network drives etc. Plus, since its mobile, the student could access the internet anywhere,; making it ideal for students involved in acitivites where they travel. This would allow the student to get the homework done on the road instead of staying up late at home.	Apr 18, 2013 11:32 AM
120	Everything	Apr 18, 2013 11:32 AM
121	So that the students can get quality work done in a short amount of time. They are great studying tools!	Apr 18, 2013 11:32 AM
122	like i said earlier it will help those kids that dont have computers at home with their homework and their class projects that they have to do.	Apr 18, 2013 11:31 AM
123	Students would have a wide access to technology and it could be eveyone, not just the students who can afford it, everyone would have access to this technology. Our world is becoming more technology dependent and I think we need to recognize that. Also having a personal device would rid the excuse of "Oh, I left it at home," because you should always have it with you. I think there are a lot of good things that could come from a 1:1 program.	Apr 18, 2013 11:31 AM
124	Students won;t have any excusses for not having their homework done if it involving being on the device because they will have it all the time.	Apr 18, 2013 11:31 AM
125	Nothing	Apr 18, 2013 11:30 AM
126	Every student, regardless of socioeconomic background would have the resources to complete their work on time and without late assignments.	Apr 18, 2013 11:30 AM

Q9. What do you see as the advantages or benefits for why we should investigate 1:1 ? (a mobile device for students)

127	It would allow for students to stay focused while using this mobile device. It will give them more responsibility and if they lose it then it is their fault.	Apr 18, 2013 11:30 AM
128	better studying	Apr 18, 2013 11:30 AM
129	students would have no excuse not to do homework that is meant to be done on a computer. Access to school drives everywhere, because they don't always work on my home computers.	Apr 18, 2013 11:29 AM
130	It would make students' lives easier because some students don't have access to computers at home so they have to worry about getting projects and other assignments done on time.	Apr 18, 2013 11:29 AM
131	If every student had a 1:1 technology, they could do all of their reports, homework, and essays on it. They would always have it with them and wouldn't have to worry about forgetting it at home or forgetting to put it on a flashdrive.	Apr 18, 2013 11:29 AM
132	expansion	Apr 18, 2013 11:29 AM
133	Not every student's family is able to afford computers or laptops or even have wifi. So giving out mobile devices can really help students maintain grades by studying or researching	Apr 18, 2013 11:28 AM
134	An advantage would be that each student has their own computer, so no one would ever have to share or wait for someone to finish with a computer before they could use one.	Apr 18, 2013 11:28 AM
135	students would be more interested in learning with this device and maybe using it to take notes during class. Since our world is growing so rapidly in technology, this would show that the school is growing as well, and is preparing students for the kind of world that will be when we graduate. This would be a very effective way of getting students to be responsible for something, have them keep all their notes in one place and it would also be an effective study tool.	Apr 18, 2013 11:28 AM
136	all students would have web access and if it's a laptop then they would be able to use word at home, just like at school	Apr 18, 2013 11:28 AM
137	Well we could check grades on the go, check missing assignments and we could use the internet at any time.	Apr 18, 2013 11:27 AM
138	everyone would have the same device, so there would be fewer configuration errors or transfer errors from home to school or vice versa	Apr 18, 2013 11:26 AM
139	having it in front of you and being able to complete more stuff on time knowing you have it with you at home and at school and having the resources	Apr 18, 2013 11:25 AM
140	better technology for students to use but our internet is too slow for it to really be an option	Apr 18, 2013 11:25 AM
141	electronic submission of work upload power points for more efficient note taking saves on paper potential of on line testing increased communication with email dropped box capabilities	Apr 18, 2013 11:10 AM

Q9. What do you see as the advantages or benefits for why we should investigate 1:1 ? (a mobile device for students)

142	no excuses that powerpoint or whatever is unavailable to them.	Apr 18, 2013 11:02 AM
143	1. Increased student performance, especially in reading. 2. Increased student interest, including benefits in attendance. 3. Ensured access to digital files by all students. 4. Easier update of textbooks (if textbooks are replaced with digital versions). 5. More rooms for teaching and other purposes as computer labs are phased out. 6. Greater readiness of students for 21st century skills. 7. Potential learning opportunities for students/classes to help with laptop upkeep. If administrators are concerned about student access to administrative rights on computers, simply employ a rolling password system. 8. Reduction in achievement gap by giving technology to underprivileged students.	Apr 18, 2013 10:59 AM
144	Classes can be taken outside of the classrooms	Apr 18, 2013 10:59 AM
145	increased exposure to technology, responsibility of managing their own computer	Apr 18, 2013 10:54 AM
146	No more excuses"I didn't have access" quick searches	Apr 18, 2013 10:43 AM
147	Everyone has access to important files, websites, online activities	Apr 18, 2013 10:40 AM
148	it will provide a way for students to work outside of libraries and computer labs where ever kids lack computers.	Apr 18, 2013 10:34 AM
149	If each student is given an iPad, they could take that to and from school and use technology in class for educational purposes.	Apr 18, 2013 10:34 AM
150	Saves paper Less books and folders	Apr 18, 2013 10:33 AM
151	Faster for students to find information	Apr 18, 2013 10:33 AM
152	Students would be more organized and everyone would have the same tools to use at home. For example, students that can't afford such devices are losing out on learning opportunities and opportunities to enrich their education.	Apr 18, 2013 10:32 AM
153	I feel that it would give all students an equal opportunity seeing as not all students own computers at home for use to do homework.	Apr 18, 2013 10:32 AM
154	It could help students who don't have technology access at home have it through a mobile device. We could incorporate more technology into our learning which could help us succeed in the future It would decrease the amount of paper used in the building	Apr 18, 2013 10:32 AM
155	People that don't have internet access at home could be able to have a mobile device where ever they go. Also, when a teacher assigns a paper (for example) there wouldn't be an excuse for the student not to do it since they have a mobile device that they can use all the time.	Apr 18, 2013 10:32 AM
156	i see nothing but advantages. the world is evolving and computers are a must now. not everyone has computers at home ant this can make it hard for students to get assignments done with minimal class time. and computer labs arent always availalable.	Apr 18, 2013 10:31 AM

Q9. What do you see as the advantages or benefits for why we should investigate 1:1 ? (a mobile device for students)

157	Students would all have the ability to use the internet as much as they would like.	Apr 18, 2013 10:31 AM
158	reduce paper waste	Apr 18, 2013 10:31 AM
159	we would be using less paper and saving money. The teachers could teach us and we could have the power point right in front of us. Some teachers go to fast so we can have the power point or notes in front of us to write them down faster.	Apr 18, 2013 10:31 AM
160	Students will be able to connect with their teachers and school work, as well as education better than they would have.	Apr 18, 2013 10:30 AM
161	Class would be more productive, and less paper would be used.	Apr 18, 2013 10:30 AM
162	access to their documents at all times throughout the day	Apr 18, 2013 10:30 AM
163	more time to work on our projects involving a computer	Apr 18, 2013 10:30 AM
164	Many people listen to music as they work, if they can have that they will not be a disturbance to their peers and teachers that are working just as hard in the classroom. Also they'll be able to access notes through the S drive on the student tab if they need to look something up.	Apr 18, 2013 10:30 AM
165	not using as much papers and it can be more organized	Apr 18, 2013 10:30 AM
166	They would be able to get something done quicker and would not need to leave class to get to a computer.	Apr 18, 2013 10:29 AM
167	Save paper, able to connect with teachers and peers, students able to keep essays and papers and homework with them at all times.	Apr 18, 2013 10:28 AM
168	IPAD	Apr 18, 2013 10:28 AM
169	getting access to technology will be easier	Apr 18, 2013 10:26 AM
170	Greater ability to advance in school with technology at the students' disposal	Apr 18, 2013 10:26 AM
171	none	Apr 18, 2013 9:53 AM
172	Allows for more research and helps with studying	Apr 18, 2013 8:42 AM
173	I can see that students will be looking at their grades more often and relising that they need to get them up.	Apr 18, 2013 8:42 AM
174	kids will get there work done faster	Apr 18, 2013 8:30 AM
175	Save paper, easier for students to focus and get homework done.	Apr 18, 2013 8:03 AM
176	Some students don't have access to a computer, and if they do, that computer might not have the program they need. (ex: Microsoft word)	Apr 17, 2013 11:54 PM
177	textbooks & notes	Apr 17, 2013 10:36 PM

Q9. What do you see as the advantages or benefits for why we should investigate 1:1 ? (a mobile device for students)

178	It emmerses more students in technology that will be used in the futre.	Apr 17, 2013 9:05 PM
179	Being able to carry all of your work in one spot, and it is enjoyable for students because we are surrounded by technology all the time	Apr 17, 2013 8:44 PM
180	Easily do assignments wherever and whenever	Apr 17, 2013 7:54 PM
181	Iphones	Apr 17, 2013 5:29 PM
182	unique apporach on learning and students can learn at their own pace	Apr 17, 2013 4:38 PM
183	no lost homework	Apr 17, 2013 11:19 AM
184	so that all homework can be done online so that there would be less waste of paper and there would actually be use of wifi	Apr 17, 2013 8:33 AM
185	something that the student can gain responsibility for and in return the device can be RELIABLE for daily use	Apr 17, 2013 6:27 AM
186	Not everyone has access to a mobile device, and everyone would be equal. Kids would want to learn more, I would surely want to learn more!	Apr 16, 2013 10:01 PM
187	Responsible students would be able to store all of their information on it, reducing time spent logging in and out. Also, it would cut costs for recharging at school and money for laptop renewals and repairs.	Apr 16, 2013 9:30 PM
188	Students can do homework on it where ever they are.	Apr 16, 2013 8:06 PM
189	More portable, no need to carry paper books	Apr 16, 2013 7:26 PM
190	Better integrate modern technology	Apr 16, 2013 6:49 PM
191	Because it gives students a better understanding of how thing work and thay will lean better	Apr 16, 2013 2:41 PM
192	It would fix the problem of having to have a flashdrive or trying to get into the schools shared drives. Sometimes you can always get the files you need. And you cant save into the schools system either so you have to rely on an email or flashdrive	Apr 16, 2013 12:50 PM
193	Take more organized notes. There will never be an excuse for unfinished homework. Everyone loves technology.	Apr 16, 2013 7:17 AM
194	Students will be happier and more willing to go to school.	Apr 15, 2013 4:40 PM
195	The students work better with thing like iPads and computers I've seen it in the classroom	Apr 15, 2013 3:49 PM
196	Make the students work more responsibly and responsive for interactive actions that require Internet.	Apr 15, 2013 12:41 PM
197	Well 1:1 teacher would help me more	Apr 15, 2013 7:07 AM

Q9. What do you see as the advantages or benefits for why we should investigate 1:1 ? (a mobile device for students)

198	Could improve learning and make kids be more interested. Some might prefer it more.	Apr 14, 2013 11:47 PM
199	Kids already use this technology, they understand and know how to work them. By involving them in class, they'll be more willing to do work.	Apr 14, 2013 10:51 PM
200	Are you kidding? The advantages are nearly endless! With the Constant improvement of technology in our modern society, there isn't a job on the planet without something plugged into an outlet! Kids need to learn more about the internet than "Don't Talk to Strangers" and "Don't give your address." The Internet is a fantastic place, blogs are an easy to manage way to share your opinions and thoughts, and If the school was intelligent about their organization, it could be a way to make the gap between teachers, parents, and students that much shorter. Parent's could stop asking "How was your day?" and other questions no child actually wants to answer. They can Read about what the child did, and have actual Conversations about it. Finally, the biggest asset in my mind would be the fact that the subjects wouldn't be as independant. The try the "Science Application!" in math classes, or the "Social Studies Connection!" in science class, but it really just brushes off the kids. They need to learn about things blending in Real World Scenarios. This would help them find subjects that they are interested in, and would give them the tools too pursue it.	Apr 14, 2013 9:53 PM
201	It would offer a chance for students to be engaged in their learning.	Apr 14, 2013 9:42 PM
202	technology access 24/7	Apr 14, 2013 9:36 PM
203	People can get stuff done more quickly, efficiently, and easily	Apr 14, 2013 9:30 PM
204	Easy access to school accounts/files/homework. (I hope)	Apr 14, 2013 8:37 PM
205	It would create equity among all students.	Apr 14, 2013 7:58 PM
206	Low income students would have access to technology that they may not otherwise have.	Apr 14, 2013 7:56 PM
207	More students have easier access to research materials	Apr 14, 2013 7:17 PM
208	If they don't have Internet at home and their schedules are busy	Apr 14, 2013 7:09 PM
209	As a student who uses the schools technology and my own mobile technology, I don't know what 1:1 is and I haven't noticed any dramatic differences since the committee was formed.	Apr 14, 2013 7:07 PM
210	Learning on the go	Apr 14, 2013 6:47 PM
211	Students would be able to contact teachers and school resources much easier	Apr 14, 2013 5:42 PM
212	Trying new things will give us ways to explore new learning styles.	Apr 14, 2013 5:37 PM
213	More students would be willing to learn with the material that they more familiar with such as technology.	Apr 14, 2013 5:15 PM
214	It will help them out we wouldn't have to go to the computer lab and for people	Apr 14, 2013 4:39 PM

Q9. What do you see as the advantages or benefits for why we should investigate 1:1 ? (a mobile device for students)

	that don't have computers at home then they can use the lab tops	
215	people who don't have computers can take one home and complete their homework.	Apr 14, 2013 4:32 PM
216	Underprivileged kids get technology available at home	Apr 14, 2013 4:28 PM
217	Instead of using a different computer all the time, kids have their own on which they can save documents and such.	Apr 14, 2013 4:25 PM
218	None	Apr 14, 2013 4:23 PM
219	Eliminates the excuse of not having computer access	Apr 14, 2013 4:23 PM
220	I don't know	Apr 14, 2013 4:22 PM
221	Dont understand what it is.	Apr 14, 2013 4:20 PM
222	It's always available	Apr 13, 2013 1:30 PM
223	if the students couldnt find an answer in a textbook they could look it up or they could use it as a calculator	Apr 13, 2013 8:38 AM
224	Everyone gets access to assignments and you can't lose your homework and you won't need to kill your back with your back. Plus you don't waste paper	Apr 12, 2013 10:11 PM
225	I would need one thing only and not have to haul around a huge bag of stuff.	Apr 12, 2013 6:26 AM
226	Think children would be more engaged in what they are doing.	Apr 12, 2013 6:21 AM
227	Teachers having a universal technology, so they can teach for its use.	Apr 12, 2013 6:04 AM
228	it would allow students to always have access to a device for school work and also for pleasure.	Apr 12, 2013 12:02 AM
229	Use less paper	Apr 11, 2013 8:57 PM
230	None	Apr 11, 2013 7:51 PM
231	that way students have no excuse to not do homework online	Apr 11, 2013 6:45 PM
232	I guess I do not necessarily see that every single kid needs to have a mobile device but that there are enough that possibly 1/2 the kids in a class can be working on them, while the teacher is doing a teacher led activity with the other half, then switch. It is very hard for the teachers to work with such large groups, 25+ kids. There are many great applications for the kids to learn from. I do not want technology to take the place of a teacher at all. I do see an advantage to having both, though.	Apr 11, 2013 6:21 PM
233	They help the less fortunate ones	Apr 11, 2013 6:17 PM
234	I think it would allow students to stay in contact. There would be no more excuses of not having a computer.	Apr 11, 2013 5:57 PM

Q9. What do you see as the advantages or benefits for why we should investigate 1:1 ? (a mobile device for students)

235	easier class work, less paper	Apr 11, 2013 5:48 PM
236	I don't really care about it. I do my school work without it.	Apr 11, 2013 5:18 PM
237	it will help people turn in there homework more effenciently and also give them a easier way to do there homework even when sick	Apr 11, 2013 4:13 PM
238	More hands on and are able to carry all the textbooks of the world in the size of a folder	Apr 11, 2013 4:02 PM
239	It would encourage more students to learn and use technology. It would also make it a lot easier for students to use the same programs at home and school because sometimes there's different softwares between home and school and students can't access certain things.	Apr 11, 2013 3:46 PM
240	Being able to have textbooks and assignments all stores cortually would help with organization and make assignments easier to turn in	Apr 11, 2013 3:36 PM
241	It would probs help kids communicate better and help their own individual strengths and weaknesses.	Apr 11, 2013 3:25 PM
242	Ability to know what assignments are due for certain classes AKA paperless planner.	Apr 11, 2013 3:11 PM
243	I have friends that need to use my computer for homework because they either don't have access to laptops or don't have one with Microsoft on it and it makes it more efficient to work on projects and homework because it logins faster and have everything you need in one place	Apr 11, 2013 2:51 PM
244	Isn't it expensive? Why do they need it ?	Apr 11, 2013 2:46 PM
245	Allows use of tech. for all students regardless of income. It also allow all students to use apps or social media in order to cooperate on projects without leaving home	Apr 11, 2013 2:04 PM
246	It would be great to have one device that you could bring to school and take home that had all your school stuff on it.	Apr 11, 2013 1:40 PM
247	Many are already using on their own, embrace it if financiallly realistic	Apr 11, 2013 1:31 PM
248	twitter use	Apr 11, 2013 1:14 PM
249	It would give all students equal access to mobile technology.	Apr 11, 2013 1:05 PM
250	Students would become better engaged and the school networks would be easier to access with a school issued device.	Apr 11, 2013 12:03 PM
251	more kids will get there work done	Apr 11, 2013 11:44 AM
252	It would provide every student with an equal opportunity, even those who may not be able to afford a computer of their own for use at home.	Apr 11, 2013 11:29 AM
253	Advanced and more efficient	Apr 11, 2013 11:29 AM

Q9. What do you see as the advantages or benefits for why we should investigate 1:1 ? (a mobile device for students)

254	You don't have to go to the library for a computer and wait for one if there is a line.	Apr 11, 2013 11:25 AM
255	Just the whole aspect of access whenever	Apr 11, 2013 11:08 AM
256	Allows those who can't afford a mobile device normally to have the same level of connection as the students who can	Apr 11, 2013 11:07 AM
257	We students like technology	Apr 11, 2013 11:01 AM
258	No, not on an average basis, if you did go thru with it there should be a fee and each device should be only accessible by a single student to prevent stealing	Apr 11, 2013 10:42 AM
259	Easier for students to do assignments and students would like school more	Apr 11, 2013 10:41 AM
260	It would probably make students more interested in school	Apr 11, 2013 10:37 AM
261	Kids are already using lap tops in class, it would give all students an opportunity to use technology in class.	Apr 11, 2013 10:05 AM
262	As of right now there are more students than computers available and when most homework requires the use of a computer it would help students and teachers to complete tasks	Apr 11, 2013 9:50 AM
263	All students would have access to a system where the os of their home computer wouldn't matter. I often have problems because I use a Mac at home and the files don't transfer	Apr 11, 2013 9:43 AM
264	I think it can help the students learn because it just works better for all of us. Plus teachers are starting to incorporate quizzes that you can text into and some teachers provide their numbers so you can ask them questions	Apr 11, 2013 9:31 AM
265	Everyone has a phone that has wifi capabilities and students are constantly on their phones	Apr 11, 2013 9:18 AM
266	Easier access, get stuff done quicker and faster	Apr 11, 2013 9:11 AM
267	Nothing	Apr 11, 2013 8:51 AM
268	It's easy for students	Apr 11, 2013 8:28 AM
269	Well we wouldnt have to buy calculators	Apr 11, 2013 8:24 AM
270	More learning opportunities	Apr 11, 2013 8:21 AM
271	These tools are used in business everyday. It would be nice for students to have the knowledge.	Apr 11, 2013 8:14 AM
272	Students could take electronic notes and do assignments electronically and worksheets couldn't be lost.	Apr 11, 2013 8:14 AM
273	i can possibly turn my homework in on time.	Apr 11, 2013 8:09 AM

Q9. What do you see as the advantages or benefits for why we should investigate 1:1 ? (a mobile device for students)

274	Notes would be easier, Easier accessibility	Apr 11, 2013 8:07 AM
275	I don't see an advantage. It would be a distraction	Apr 11, 2013 8:07 AM

What do you see as the concerns or problems related to a 1:1? (providing a mobile device for students)

Q10. What do you see as the concerns or problems related to a 1:1? (providing a mobile device for students)

1	Well obviously people will have easy access to text messaging which could cause a cheating problem and possibly more of a bullying problem.	May 5, 2013 7:36 PM
2	Just the obvious things like breaking/losing the device.	Apr 25, 2013 7:49 PM
3	Damages to the devices.	Apr 25, 2013 6:52 PM
4	none	Apr 25, 2013 3:10 PM
5	They could misuse it sometimes.	Apr 25, 2013 2:44 PM
6	what happens when it does not work	Apr 25, 2013 2:34 PM
7	Kids doing something else in class.	Apr 25, 2013 11:54 AM
8	the cost, and reliability	Apr 25, 2013 9:21 AM
9	nothing	Apr 25, 2013 8:47 AM
10	I think the students should have or be provided with a mobile device, but one with good quality.	Apr 24, 2013 10:25 PM
11	people not doing what is expected of them or appropriate on the internet	Apr 24, 2013 7:33 PM
12	Invasion of privacy.	Apr 24, 2013 11:06 AM
13	Kids breaking them.	Apr 23, 2013 9:33 PM
14	nothing	Apr 23, 2013 3:47 PM
15	Again, it would be costly, but it is my belief this would be worth it.	Apr 23, 2013 3:44 PM
16	expensive	Apr 23, 2013 10:54 AM
17	It could possibly become a distraction to some students at home. Another thing is students could be getting on social networking sites during class, but the school could always block those sites. Also, it could prevent students from getting enough sleep if they were on the devices all night, but my other school solved that by shutting down all computers at 10pm.	Apr 23, 2013 10:13 AM
18	Money, and not every family even has the internet to use a mobile technology device. I think it should be offered instead of just given out.	Apr 23, 2013 10:12 AM
19	No probelms.	Apr 23, 2013 8:51 AM
20	damage	Apr 23, 2013 8:24 AM
21	Children would be distracted at first.	Apr 22, 2013 9:32 PM
22	The expense that would be taken on by the school district concerns me and the theft issues that may be involved.	Apr 22, 2013 12:49 PM
23	The school and teachers and kids rely on digital textbooks too much. they should have some textbooks books. but you don't have to give one to every kid. they	Apr 22, 2013 10:05 AM

Q10. What do you see as the concerns or problems related to a 1:1? (providing a mobile device for students)

	could have maybe 8 to 10 textbooks in the classroom. By doing this they can just share a textbook with someone. this way they learn communication skills.	
24	Cost. However, I want an iPad just for going somewhere and my parents paying taxes.	Apr 21, 2013 10:14 PM
25	Lost or broken mobile devices	Apr 21, 2013 10:13 PM
26	cheating, breaking and losing computers or ipads	Apr 21, 2013 5:34 PM
27	Cost to the school board / taxpayers.	Apr 21, 2013 2:46 PM
28	How are you going to monitor what students are using their mobile devices for at any particular moment?	Apr 20, 2013 9:10 AM
29	Abuse	Apr 20, 2013 1:26 AM
30	None	Apr 19, 2013 7:47 PM
31	Who is held accountable for the things done on the technology? Not protecting the safety of the technology.	Apr 19, 2013 11:26 AM
32	The responsibility of losing them or theft. This could be too much for some students	Apr 19, 2013 10:36 AM
33	loss, theft, no internet at home	Apr 19, 2013 8:50 AM
34	it would be a big responsibility.	Apr 18, 2013 10:04 PM
35	Damage to devices	Apr 18, 2013 9:40 PM
36	Learning how to use program	Apr 18, 2013 9:33 PM
37	Losing the device and the cost to replace it.	Apr 18, 2013 9:02 PM
38	Students not being able to pay for them	Apr 18, 2013 8:24 PM
39	The district purchasing low-quality laptops for students. The district purchasing Netbooks or mini laptops for students. (If you are buying us computers, I want a nice, expensive, lightweight, computer (either with screen flip technology or additional (also lightweight) tablet technology to take handwritten notes with. If district does not provide a fully functional (not a tablet), full-sized (at least 15") widescreen, Bluetooth capable laptop with screen flip technology (or compatible technology like a tablet) for handwritten notes, a number keypad on the keyboard, at least three USB ports (capable of charging an iPad), and styluses for note-taking, a wireless mouse, a carrying case, a power cord (and access to outlets at school), the ability to download programs such as Evernote, Dropbox, and Google Drive, complete sets of CURRENT Creative Suites pre-installed on the computer, full access to ALL settings on my computer, no parental restrictions, no time restrictions, no ability for district to access my personal passwords and accounts without my knowledge and consent, electronic copies of ALL textbooks available free to students, sufficient technology assistance available to students regarding their technology, NO ability for school district to track my location, web activity, passwords, etc. used on that computer, and	Apr 18, 2013 7:55 PM

Q10. What do you see as the concerns or problems related to a 1:1? (providing a mobile device for students)

	(possible) medical compensation for back problems resulting from the district providing heavyweight or insufficient technology and requiring me to bring my own technology in addition to that provided to me by the district, I would not be happy with the program. Unless you are prepared to meet those demands, it is A WASTE OF MONEY to provide technology to students and I would advise the district instead use those funds to fix the current problems with the technology services currently provided to students.	
40	Access on Internet you tube texting etc in addition lost devices and replacement if family cannot afford etc	Apr 18, 2013 7:31 PM
41	Nothing	Apr 18, 2013 7:15 PM
42	Damage/Stolen Devices / Liability	Apr 18, 2013 7:12 PM
43	Students using it for purposes not intended.	Apr 18, 2013 7:04 PM
44	No concerns	Apr 18, 2013 6:55 PM
45	It could be potentially distracting and they may be misused by students.	Apr 18, 2013 4:59 PM
46	stuffed bloody pickles	Apr 18, 2013 4:30 PM
47	Some kids may lose or break their tablet/laptop.	Apr 18, 2013 3:54 PM
48	Cost is too much. Students will not use them for productivity, but for entertainment. Repairs and tech issues will be constant. I-pads are not useful for productivity. The real work happens on laptops and desktops. Drill and practice can be done on I-pads, but rigorous academic work cannot be done on I-pads. The educational games are trivial. If we do this, it better be laptops or nothing more than an e-reader. Oops, I just saw that this was a student survey. I teach at Valley. This survey came up with the link I followed.	Apr 18, 2013 3:21 PM
49	I work with ESL students and this program sounds like you are assuming that all students are computer literate; you are assuming staff is literate; how would repairs/problems be handled; how would improper use be monitored/handled;	Apr 18, 2013 3:10 PM
50	I think it would be a big cost for the school district in a time where we really shouldn't be overspending.	Apr 18, 2013 2:53 PM
51	My main concern with it would be security. What sort of things would be on the computer and how would it affect the students ability to get into trouble. Are certain sites going to be blocked on the internet? It could also interfere with the students home life if they are banned from the computer, they could claim they are doing "homework" while they are really doing something else.	Apr 18, 2013 2:51 PM
52	students would almost never pay attention in class breakage/ theft of these devices that would be provided to the students misuse of the devices provided to students	Apr 18, 2013 2:48 PM
53	it could be distracting and what would happen if a student lost or broke it? those would be my main concerns.	Apr 18, 2013 2:48 PM
54	The device getting lost or damaged, or the device becoming a distraction.	Apr 18, 2013 2:47 PM

Q10. What do you see as the concerns or problems related to a 1:1? (providing a mobile device for students)

55	Students might never use it or could abuse it in some way.	Apr 18, 2013 2:46 PM
56	Holding students accountable for damages and loss. Would they be forced to take on the technology, even if they knew that they couldn't afford to cover the cost of repairing or replacing it, should it be broken?	Apr 18, 2013 2:45 PM
57	Cost, illegal use of software, viruses, teenagers with internet.	Apr 18, 2013 2:45 PM
58	How they will keep them charge throughout the school day.	Apr 18, 2013 2:44 PM
59	I could see people logging onto different social networks.	Apr 18, 2013 2:44 PM
60	battery life broken not actually used less hands on stuff screens hurt eyesight technology will become outdated quickly	Apr 18, 2013 2:43 PM
61	too much texting can be occur if the mobile devices is not that good they will just thow it away some of us don;t really care :)	Apr 18, 2013 2:43 PM
62	The Internet is a scary place.	Apr 18, 2013 2:42 PM
63	damaging the electronics or like stealing.	Apr 18, 2013 2:42 PM
64	Nothing	Apr 18, 2013 2:24 PM
65	Some technology would "walk off." Some students would use it for non-education-related purposes, especially during class	Apr 18, 2013 2:10 PM
66	Cost? How is this funded. More pressing needs IMO in what I hear are going to difficult budgetary times. What happens if the students break or lose the piece of technology? We have bandwidth issues as it is, what is going to be done to improve that. I would have to see what schools have done this and the impact on education. Not opinions, give me evidence of it.	Apr 18, 2013 2:08 PM
67	Students who want their own laptop that they could have going into college to keep pictures and other documents on. By needing to return them at the end of the year it is not entirely personal	Apr 18, 2013 1:58 PM
68	Very many distractions, people will just play with the technology and not follow it for its intended purposes.	Apr 18, 2013 1:57 PM
69	How much personalization can the laptops have? (New apps, installations, downloads, etc.)	Apr 18, 2013 1:57 PM
70	Students getting distracted or playing games, but the computers could be hooked up so that the teacher could see what they're doing on the screen. They could potentially get lost or stolen if not cared for properly.	Apr 18, 2013 1:57 PM
71	That would make me responsible for school property. I don't want or need that responsibility.	Apr 18, 2013 1:57 PM
72	I am actually opposed to the 1:1 program because I know that students would not use the mobile device for schoolwork; it would just be used to play games and surf the internet. Most students at Valley have their own laptops or iPads, so there is no need to spend millions of dollars on supplying them with an extra	Apr 18, 2013 1:57 PM

Q10. What do you see as the concerns or problems related to a 1:1? (providing a mobile device for students)

	device. For students that do not have access to a computer/iPad, the media center is always open before, during, and after school to work. The 1:1 program would not benefit enough to be worth the extreme cost, in fact, I see it causing problems with distraction.	
73	students would be distracted when they first get it at least, they could be expensive to replace	Apr 18, 2013 1:57 PM
74	NONE.	Apr 18, 2013 1:57 PM
75	Porn	Apr 18, 2013 1:56 PM
76	---Damage to the devices ----Loss of the devices ---Improper and inappropriate use of resources ---ease of social media use ----then cyberbullying at the school	Apr 18, 2013 1:56 PM
77	Technology becoming a distraction, or students not returning the devices	Apr 18, 2013 1:56 PM
78	the cost if a student were to break them	Apr 18, 2013 1:55 PM
79	I don't really see any, as long as there are regulations for the devices	Apr 18, 2013 1:54 PM
80	none	Apr 18, 2013 1:54 PM
81	more access to distractions	Apr 18, 2013 1:54 PM
82	not using it correctly	Apr 18, 2013 1:53 PM
83	Money; although in the long run there would be a lot of paper savings. Also there would be some abuse of the tech whether its breaking them or porn	Apr 18, 2013 1:53 PM
84	Many students would abuse the product.	Apr 18, 2013 1:53 PM
85	abuse of technology selling of technology	Apr 18, 2013 1:53 PM
86	I think there would be significant costs associated with the program. Additionally, I fear that if given the devices many students would not be focused on schoolwork. I would also fear that there could be damage to the devices.	Apr 18, 2013 1:53 PM
87	It would be expensive.	Apr 18, 2013 1:53 PM
88	Students taking advantage of technology as a distraction during class.	Apr 18, 2013 1:52 PM
89	I WILL REFUSE TO USE MOBILE TECHNOLOGY!	Apr 18, 2013 1:51 PM
90	damage to technology, expensive, students arent going to use it for school work	Apr 18, 2013 1:51 PM
91	Up keep - service trade out computer rotation for up keep or damagae also lose	Apr 18, 2013 1:43 PM
92	Nothing really	Apr 18, 2013 1:39 PM
93	Holding irresponsible students reliable for the damage or loss of the technology.	Apr 18, 2013 1:12 PM
94	students would forget them at home. (if allowed to take them home)	Apr 18, 2013 1:10 PM

Q10. What do you see as the concerns or problems related to a 1:1? (providing a mobile device for students)

95	possibility of theft and property damages.	Apr 18, 2013 1:08 PM
96	Might get distracted by games or might forget to charge said device	Apr 18, 2013 1:08 PM
97	Distractions	Apr 18, 2013 1:07 PM
98	Technological problems, distractions	Apr 18, 2013 1:07 PM
99	The loss or damage of expensive technological devices.	Apr 18, 2013 1:06 PM
100	students being off task	Apr 18, 2013 1:06 PM
101	Students may take advantage of the given device or keep them for personal use.	Apr 18, 2013 1:06 PM
102	loss or damage	Apr 18, 2013 1:05 PM
103	Distractions	Apr 18, 2013 1:05 PM
104	See above statement for cons. I don't want to retype it.	Apr 18, 2013 1:05 PM
105	Theft	Apr 18, 2013 1:04 PM
106	distractions	Apr 18, 2013 1:04 PM
107	Massive waste of money	Apr 18, 2013 1:04 PM
108	Misuse.	Apr 18, 2013 1:04 PM
109	Drama, social networking	Apr 18, 2013 1:02 PM
110	-sustainability (BYOD w/ district devices available for those who need them could be an option) -upkeep/tech support	Apr 18, 2013 12:52 PM
111	safety, security, reliability	Apr 18, 2013 12:49 PM
112	none	Apr 18, 2013 12:28 PM
113	EVERYTHING	Apr 18, 2013 12:22 PM
114	The only concern I would have is if the computer or device is damaged in some sort of way, whether from physical abuse or from malicious viruses that can be picked up. If that happens how will the device be fixed? Does the price come out of our own pocket or will the school pay for that? The malicious virus deal is more a general concern for a Windows product seeing how Apple is doing fantastic with basically virus proof software.	Apr 18, 2013 11:33 AM
115	i dont see a problem	Apr 18, 2013 11:32 AM
116	It is a lot of money to get a device like that to all of the students. And to be hones, most students stay up late anyway, so the travel issue isn't that big of a problem. Also, as for myself and many others, my techology situation is fine. I prefer to do my homework at home in peace,so the mobile device wouldn't make a big difference to me and many others.	Apr 18, 2013 11:32 AM

Q10. What do you see as the concerns or problems related to a 1:1? (providing a mobile device for students)

117	Maybe kids misusing the laptops	Apr 18, 2013 11:32 AM
118	Programs could be downloaded that could be seen as inappropriate or a waste of time.	Apr 18, 2013 11:32 AM
119	i see nothing wrong with it. i think it is a great idea and plan to do for valley students	Apr 18, 2013 11:31 AM
120	Kids abusing the property, hurting or damaging the devices. Using them inappropriately, doing things they shouldn't be. Keeping students on task during class with them, and not getting distracted by games and other things that can be accessed on the device.	Apr 18, 2013 11:31 AM
121	Some students will not use the device for the right things. During school they could be surfing the internet while a teacher is teaching and the student won't know what was taught to him/her. And they could also be taking pictures of themselves or others during class time instead of doing classwork or learning.	Apr 18, 2013 11:31 AM
122	It would end up being a major distraction in class and it would be one more way that students can get off task. Students already constantly check phones and emails. We all know how to use technology and we should keep the same amount of books and papers in our education.	Apr 18, 2013 11:30 AM
123	Theft would go up.	Apr 18, 2013 11:30 AM
124	If people do end up losing this device then the school must provide one to them for everyone to be equal. It may cost a lot of money to get every student a mobile device.	Apr 18, 2013 11:30 AM
125	we became too lazy and if anything is damaged is the student responsible to pay for it?	Apr 18, 2013 11:30 AM
126	People would use the computers for personal things, like social networking. People might not take care of the computers. They would be really expensive if lost or broken.	Apr 18, 2013 11:29 AM
127	property damage	Apr 18, 2013 11:29 AM
128	NONE	Apr 18, 2013 11:29 AM
129	technology abuse	Apr 18, 2013 11:29 AM
130	That school will be too strict with them or kids will take advantage and use the items in a way they were not intended to be.	Apr 18, 2013 11:28 AM
131	The potential of many students breaking their equipment, or using it for inappropriate uses or using it for non-school related activities during class time instead of paying attention to the teacher.	Apr 18, 2013 11:28 AM
132	maybe it could be a little distracting, but if the teachers make the students stay on task, i don't see this as a huge problem.	Apr 18, 2013 11:28 AM
133	a distraction in class and students taking advantage of a device such as not using it correctly also very expensive	Apr 18, 2013 11:28 AM

Q10. What do you see as the concerns or problems related to a 1:1? (providing a mobile device for students)

134	well there's people who wont do the work and will instead goof off or text or stuff like that.	Apr 18, 2013 11:27 AM
135	there would be a large cost for this, and some students would use them for dumb reasons or they would abuse them	Apr 18, 2013 11:26 AM
136	not using it as they should be at times	Apr 18, 2013 11:25 AM
137	as a student i can see myself spacing off in class playing on whatever piece of technology you give us. personally its not a good idea	Apr 18, 2013 11:25 AM
138	games, social media monitoring theft, lost, damaged and maintence issues	Apr 18, 2013 11:10 AM
139	no physical tesxbooks anymore damage/theft misuse during class	Apr 18, 2013 11:02 AM
140	1. Greater need for full time employees to handle maintenance and upkeep. 2. Greater need to train the district on how to implement a 1:1 initiative effectively.	Apr 18, 2013 10:59 AM
141	Students will goof off more	Apr 18, 2013 10:59 AM
142	vandalism, theft, etc.	Apr 18, 2013 10:54 AM
143	logistics of keeping track of all the equip.; bandwith issues	Apr 18, 2013 10:46 AM
144	constantly "plugged in" it becomes a distraction! ! ! ! students lose or destroy property	Apr 18, 2013 10:43 AM
145	cost, training teachers to do it right	Apr 18, 2013 10:40 AM
146	it wont be used correctly and people wont treat them correctly	Apr 18, 2013 10:34 AM
147	The major concern I have is the responsibility that students would have to have in order to have a mobile device provided to them.	Apr 18, 2013 10:34 AM
148	The s drive not working and hundreds of students not having a way to do their homework	Apr 18, 2013 10:33 AM
149	Distractions. Easliy misplaceable by students. Costly	Apr 18, 2013 10:33 AM
150	Student's irresponsibility. They will need to be told up front what the consequences of damaging or losing the mobile device are. For example, if a student and parent know much it will cost to fix, then the student will be less likely to treat it poorly.	Apr 18, 2013 10:32 AM
151	I feel that not all students are necessarily responsible enough to handle a mobile device and it could be a potential distraction in the classrom.	Apr 18, 2013 10:32 AM
152	Costs of buying these devices for all students--where could the money be spent otherwise? How does the school control damaged devices?	Apr 18, 2013 10:32 AM
153	Giving each student a mobile device for a whole school year could lead to damages to the device if they aren't careful.	Apr 18, 2013 10:32 AM
154	no concerns	Apr 18, 2013 10:31 AM

Q10. What do you see as the concerns or problems related to a 1:1? (providing a mobile device for students)

155	Students would be able to cheat a lot easier.	Apr 18, 2013 10:31 AM
156	cost damage	Apr 18, 2013 10:31 AM
157	The problems would be students getting on the laptops and messing around. I feel that the students would do that at first but then they would actually get there work done since every student wants good grades.	Apr 18, 2013 10:31 AM
158	Starting a new system always takes time and patience.	Apr 18, 2013 10:30 AM
159	Students would missuse the computers, they could get destroyed by some students, and if they are slow it would waste class time.	Apr 18, 2013 10:30 AM
160	those devices could get damaged	Apr 18, 2013 10:30 AM
161	nothing	Apr 18, 2013 10:30 AM
162	People are more than likely to not take care of objects that do not belong to them and attempt to keep and steal the computers. They can also be a distracting object if they are right in the students' backpacks and pretend to work.	Apr 18, 2013 10:30 AM
163	might be some mis use but not much	Apr 18, 2013 10:30 AM
164	Them playing games but thats it.	Apr 18, 2013 10:29 AM
165	Cost, damage potential.	Apr 18, 2013 10:28 AM
166	NOTHING	Apr 18, 2013 10:28 AM
167	none	Apr 18, 2013 10:26 AM
168	none	Apr 18, 2013 10:26 AM
169	Everything about it is a concern	Apr 18, 2013 9:53 AM
170	NONE	Apr 18, 2013 8:42 AM
171	They may lose their device.	Apr 18, 2013 8:42 AM
172	nothing it be good for the kids	Apr 18, 2013 8:30 AM
173	Risk if broken	Apr 18, 2013 8:03 AM
174	Losing or damaging device, but if there was an insurance fee, or damaging fee, that could help.	Apr 17, 2013 11:54 PM
175	games during class, but easily avoided. or people breaking them.	Apr 17, 2013 10:36 PM
176	Students might not use it appropriately. The cost issue.	Apr 17, 2013 9:05 PM
177	Students could be using it for non school related reasons, and there would be issues if a student broke or lost their device	Apr 17, 2013 8:44 PM
178	Iphones	Apr 17, 2013 5:29 PM

Q10. What do you see as the concerns or problems related to a 1:1? (providing a mobile device for students)

179	students might damage products or try to take them with them without teacher approval	Apr 17, 2013 4:38 PM
180	no access to WiFi	Apr 17, 2013 11:19 AM
181	none	Apr 17, 2013 8:33 AM
182	losing the personal device	Apr 17, 2013 6:27 AM
183	Cyber-bullying, Some students may also not be able to focus enough on school work.	Apr 16, 2013 10:33 PM
184	It could be distracting. I think students would adjust to their mobile devices after awhile though.	Apr 16, 2013 10:01 PM
185	Irresponsible students would break them, resulting in large amounts of damage to school property. Also, irresponsible students would misuse the technology during work time, ending up with poorer work.	Apr 16, 2013 9:30 PM
186	Some students might break it.	Apr 16, 2013 8:06 PM
187	Theft, damage, cost, misplacing it and replacement costs	Apr 16, 2013 7:26 PM
188	Costly; privacy of students?	Apr 16, 2013 6:49 PM
189	Nothing	Apr 16, 2013 2:41 PM
190	the cost. If the computers are bad/old they may not be use full.	Apr 16, 2013 12:50 PM
191	Get off task.	Apr 16, 2013 7:17 AM
192	N/A	Apr 15, 2013 4:40 PM
193	Electronics getting lost or damaged	Apr 15, 2013 3:49 PM
194	Using 1:1 at inappropriate times(during a teacher lecture, time set aside for homework).	Apr 15, 2013 12:41 PM
195	Students will be on twitter or facebook	Apr 15, 2013 7:07 AM
196	some kids are irresponsible and can't handle that great opportunity.	Apr 14, 2013 11:47 PM
197	Could pose as a distraction, but limitations can be made as to what the mobile device allows them to do.	Apr 14, 2013 10:51 PM
198	Sadly, the WDMCS is full of... irresponsible students? Not to imply that's all of them, no, but the majority of kids would use this mobile device for slacking and goofing off. Plus, this whole system is all dependent on participation. If the teachers loose interest, so do the kids, and then it's all been for naught. But I believe that the possible benefits of this system far outweigh the problems involved.	Apr 14, 2013 9:53 PM
199	A concern would be will students use this device to bully or harass other students?	Apr 14, 2013 9:42 PM

Q10. What do you see as the concerns or problems related to a 1:1? (providing a mobile device for students)

200	items getting stolen, lost	Apr 14, 2013 9:36 PM
201	Ppl might fool around with the technology	Apr 14, 2013 9:30 PM
202	Theft, obviously. Forgetfulness (guilty as charged), or losing it.	Apr 14, 2013 8:37 PM
203	theft/loss	Apr 14, 2013 7:58 PM
204	There is a risk of students damaging the given devices. Plus, so many students already have mobile devices and another one isn't necessary. I also think that just giving students a mobile device gives them a sense of entitlement.	Apr 14, 2013 7:56 PM
205	None	Apr 14, 2013 7:17 PM
206	The risk of a student getting theirs stolen, then have to pay for another one to replace	Apr 14, 2013 7:09 PM
207	Wasting money? The school should spend less money trying to push everything to mobile devices (which many students don't have, leading them to feel left out) and should focus on improving the technology within the school itself.	Apr 14, 2013 7:07 PM
208	What to do when the devices don't work properly.	Apr 14, 2013 6:58 PM
209	I'm not sure	Apr 14, 2013 6:47 PM
210	Can be seen as privacy invasion by some	Apr 14, 2013 5:42 PM
211	Easily lost. Easily broken. Hard to replace.	Apr 14, 2013 5:37 PM
212	Some students will use this chance to take advantage of their mobile device.	Apr 14, 2013 5:15 PM
213	Theft, reliability, usefulness. I currently don't use many of my textbooks, they are just dead weight. Plus typing essays on a device without a keyboard is hard.	Apr 14, 2013 5:13 PM
214	Students might break or steal them but you should always take accounts on where and when they need to be back	Apr 14, 2013 4:39 PM
215	People might break the computer or loose it. The school might loose lots of money if the computers aren't treated right. People might use them for a bad use and not for school proposes.	Apr 14, 2013 4:32 PM
216	If kids lose or break these mobile devices	Apr 14, 2013 4:28 PM
217	It seems a little unnecessary since the technology is readily available at school. Maybe for specific classes or units it may be beneficial but otherwise it seems like a waste of money.. and I'm a student!	Apr 14, 2013 4:25 PM
218	A lot. No one would use them.	Apr 14, 2013 4:23 PM
219	Possible theft	Apr 14, 2013 4:23 PM
220	I don't know	Apr 14, 2013 4:22 PM
221	Stolen. Damaged. Cheating. Not being used for school use.	Apr 13, 2013 1:30 PM

Q10. What do you see as the concerns or problems related to a 1:1? (providing a mobile device for students)

222	nothing would be wrong	Apr 13, 2013 8:38 AM
223	Get distracted by playing games or something	Apr 12, 2013 10:11 PM
224	stealing/losing it	Apr 12, 2013 10:00 AM
225	if it breaks	Apr 12, 2013 6:26 AM
226	Breakage or stolen items- the fact that in 2 years the technology could be obsolete. Appropriate controls for accessing internet.	Apr 12, 2013 6:21 AM
227	Misuse	Apr 12, 2013 6:04 AM
228	losing the device or damaging of the device- any and all accidents that could happen to the device must be covered or people will find a way to get around paying.	Apr 12, 2013 12:02 AM
229	Distraction of students, more responsibility, liability, more work for tech staff	Apr 11, 2013 8:57 PM
230	Stuff gets stolen	Apr 11, 2013 7:51 PM
231	people might abuse the technology but only give one laptop per student	Apr 11, 2013 6:45 PM
232	I would not want the teachers to get to dependent on the mobile devices. Some requirements would need to be written up, how much technology teaching is done and how much teacher led instruction, etc...	Apr 11, 2013 6:21 PM
233	Broke devices, losing money	Apr 11, 2013 6:17 PM
234	If students got onto something that they shouldn't it could cause problems. Students could also steal them.	Apr 11, 2013 5:57 PM
235	Broken or lost	Apr 11, 2013 5:48 PM
236	the fact that if you did you would most likely restrict all sites like youtube which is actually fundamental in some aspects of the school	Apr 11, 2013 4:13 PM
237	Some students will most likely break them, as they are very breakable objects and students may 'screw around' with them and could provoke focusing in class	Apr 11, 2013 4:02 PM
238	Honestly, the only downside would be the possibility of students breaking it, but if they're the ones who have to pay for it if it's damaged, I'm sure they'd be much more careful.	Apr 11, 2013 3:46 PM
239	Hooligans using it for malicious purposes.	Apr 11, 2013 3:36 PM
240	None!(!:	Apr 11, 2013 3:25 PM
241	Constant use of other features of the device.	Apr 11, 2013 3:11 PM
242	Maybe a student losing it or damaging it because I know it happens and would be expensive to repair and it does take a lot of trust	Apr 11, 2013 2:51 PM
243	We need more information. Such as the purpose of the device and the learning	Apr 11, 2013 2:46 PM

Q10. What do you see as the concerns or problems related to a 1:1? (providing a mobile device for students)

	goals.	
244	It would be a large investment but the paper saving and educational benefits would outweigh the costs	Apr 11, 2013 2:04 PM
245	The cost of the 1:1 devices would be very expensive. There are not that many benefits with 1:1 devices unless the teachers incorporate it in their lesson plans.	Apr 11, 2013 1:40 PM
246	Security, loss issues, appropriate websites	Apr 11, 2013 1:31 PM
247	bad wifi	Apr 11, 2013 1:14 PM
248	The quality of the device would most likely be questionable.	Apr 11, 2013 1:05 PM
249	Students becoming distracted.	Apr 11, 2013 12:03 PM
250	nothing	Apr 11, 2013 11:44 AM
251	Cannot ensure security	Apr 11, 2013 11:29 AM
252	You can lose it or get or stolen	Apr 11, 2013 11:25 AM
253	Irresponsible students	Apr 11, 2013 11:08 AM
254	Damages to the devices, theft, waste of money	Apr 11, 2013 11:07 AM
255	Kids would break their technology and there could be fewer teachers teaching	Apr 11, 2013 10:41 AM
256	They might malfunction a lot	Apr 11, 2013 10:37 AM
257	Distractions in class	Apr 11, 2013 10:05 AM
258	The last time devices were assigned no policy related to lost or stolen recovery was put into place and all the equipment was gone without a trace	Apr 11, 2013 9:50 AM
259	Maybe students accidentally damage their devices	Apr 11, 2013 9:43 AM
260	Students could damage or lose them	Apr 11, 2013 9:11 AM
261	Nothing	Apr 11, 2013 8:51 AM
262	People will be distracted more	Apr 11, 2013 8:28 AM
263	Losing, stealing, breaking, etc	Apr 11, 2013 8:24 AM
264	Oversight.	Apr 11, 2013 8:14 AM
265	Maybe some kids aren't responsible enough to handle such equipment. Plus what happens if equipment is damaged or broken? Who pays for that? There will be problems at first but it will all work out in the end.	Apr 11, 2013 8:14 AM
266	that it will be abused by the students.	Apr 11, 2013 8:09 AM
267	It depends on the class, could deem unnecessary	Apr 11, 2013 8:07 AM

Q10. What do you see as the concerns or problems related to a 1:1? (providing a mobile device for students)

268	It would be a distraction. The only good thing would be if there was an app for students to download.	Apr 11, 2013 8:07 AM
