Q2. How will you apply the learning from today in your classroom?

1	Grade book info - immediately	Sep 18, 2014 3:47 PM
2	Once the chromebooks arrive, we will be using all of today's training in the classroom	Sep 18, 2014 8:28 AM
3	I'm excited to set up Google classrooms (I'm getting a chromebook cart this year). I well also definitely use kahoot it as a review game.	Sep 17, 2014 4:05 PM
4	Use many of the tips from Infinite Campus.	Sep 16, 2014 7:43 AM
5	Infinite campus - use it daily; will use the beta version now	Sep 16, 2014 6:26 AM
6	Continue to increase technology uses within the classroom.	Sep 15, 2014 3:22 PM
7	I learned a lot that can be used and some of it I am already using.	Sep 15, 2014 3:20 PM
8	I plan on using many of the apps and extensions for Google that I picked up in different sessions.	Sep 15, 2014 3:18 PM
9	I will be creating practice videos on YouTube that students can use at home before auditioning for solos and other auditioned ensembles. Also, using the document camera to record video and upload those to incorporate in larger videos...possibly use a combo of document camera and Youtube to put together sub plans?! Exciting!	Sep 15, 2014 3:15 PM
10	Probably won't	Sep 15, 2014 3:15 PM
11	Use the appropriate tools	Sep 15, 2014 3:14 PM
12	I will download apps, work with the YouTube functioning, Smart Music. I learned a lot today	Sep 15, 2014 3:13 PM
13	I definitely be using beta IC. I will try to incorporate a little Google. (such as Google Slides and Google Classroom)	Sep 15, 2014 3:13 PM
14	I will use Google docs during my teaching to make learning more effective. It will keep students involved by using technology.	Sep 15, 2014 3:13 PM
15	I will start google classroom when I get my chrome books. I have updated my gradebook	Sep 15, 2014 3:10 PM
16	I will be using all the Google programs and applications in my IPDP to change my classroom around	Sep 15, 2014 3:09 PM
17	I was a session leader. I will be able to serve as a resource for teachers when they have questions.	Sep 15, 2014 3:08 PM
18	I plan to experiment with Google Classroom	Sep 15, 2014 3:08 PM
19	Icreated a form and will use it will all students at Indian Hills	Sep 15, 2014 3:06 PM
20	assessments, instruction, management (IC)	Sep 15, 2014 3:04 PM
21	Infuse learning and flubaroo to do pre and formative assesments	Sep 15, 2014 3:04 PM

Q2. How will you apply the learning from today in your classroom?

22	Formative assessment, differentiation and gathering data to do more informed lesson planning	Sep 15, 2014 3:03 PM
23	I plan on creating Google Drive folders for my English classes.	Sep 15, 2014 3:00 PM
24	Google Classroom will be so helpful in streamlining student projects.	Sep 15, 2014 3:00 PM
25	I will use google docs and calendar	Sep 15, 2014 3:00 PM
26	I plan to use the things I learned in IC and Sosrative	Sep 15, 2014 2:59 PM
27	I will use my Google Drive for storage of my documents and I will use Infinite Campus Beta to do my gradebook.	Sep 15, 2014 2:58 PM
28	Incorporate google forms into my formative assessment.	Sep 15, 2014 2:56 PM
29	We will move to Classroom and Beta	Sep 15, 2014 2:48 PM
30	Google classroom looks pretty awesome. It's somewhat similar to weebly so that part was frustrating. I've already uploaded so much to weebly and now we have google classroom. I wish we had a 5 year plan that all students and staff were on the same page. We're all using google classroom for the next five years and learning how to improve it. Not switching things EVERY year. We've had moodle, we've had weebly, and now google classroom. They're all good, so just pick one as a district. I think the kids would be more familiar and be able to do more when every teacher in every building is doing somewhat similar things. Google Drive has been fairly successful with this, lets do that with weebly/google classroom.	Sep 15, 2014 2:46 PM
31	I am interested in using tips from Flubaroo and Google Classroom in my own classroom once we get the Chromebooks. I think using Google Forms and then running responses using Flubaroo will be a good pre-assessment tool, as well as an easy way to formative assess throughout a unit.	Sep 15, 2014 2:45 PM
32	I will need to process all of the info and see where things best fit. I will definitely be using IC Beta	Sep 15, 2014 2:42 PM
33	I will be using kahoot to do preassessments and review games!! I set up google classroom and am thinking that i will use it but still need more information on how to best use it for collaboration/group projects.	Sep 15, 2014 2:39 PM
34	PD session for staff	Sep 15, 2014 2:38 PM
35	I have set up Google Classrooms, I know more about IC and distributing assignments and other functions in the new IC Beta, I know more tips to pass on to kids for researching and narrowing Google searches	Sep 15, 2014 2:12 PM
36	Google calendars to reserve computers	Sep 15, 2014 2:10 PM
37	I will communicate with colleagues through Hangouts.	Sep 15, 2014 1:23 PM
38	I already an and will continue to us goodle doc,presentation and forms in my classroom.	Sep 15, 2014 1:20 PM

Q2. How will you apply the learning from today in your classroom?

39	All of it, document camera, and infuse learning will be used daily.	Sep 15, 2014 10:43 AM
40	I will try to create a test from the Flubaroo class that I took for my students before the start of the new year.	Sep 15, 2014 8:37 AM

Q3. What did you like about today? What went well?

1	60 apps session Document camera	Sep 18, 2014 3:47 PM
2	individuals could pick their sessions to get the most out of the training	Sep 18, 2014 8:28 AM
3	I felt the workshops were immediately useful.	Sep 17, 2014 4:05 PM
4	i liked learning about a program i already use and can ask questions and learn MORE about it	Sep 16, 2014 6:26 AM
5	I liked that we were able to select the sessions based on our needs. We were also able to select sessions at the "201" level which were based on more advanced applications if we have already been utilizing something.	Sep 15, 2014 3:22 PM
6	Enjoyed all sessions and really learned from each one.I	Sep 15, 2014 3:20 PM
7	All the information that I got today was immediately applicable to my classroom and my teaching.	Sep 15, 2014 3:18 PM
8	I loved that we could pick up with things exactly where we needed to! We are all at different levels with technology (just like our students are with the material we are teaching them) and the various offerings of sessions AND the varying levels within each category - absolutely great!	Sep 15, 2014 3:15 PM
9	Freedom to choose my learning	Sep 15, 2014 3:15 PM
10	Wide variety	Sep 15, 2014 3:14 PM
11	I got to choose classes for my interest. Every class was well prepared.	Sep 15, 2014 3:13 PM
12	lots of hands-on training	Sep 15, 2014 3:13 PM
13	I got very good instructions on grade book and Google docs.	Sep 15, 2014 3:13 PM
14	today was excellent for me. I needed today to help me in my classroom	Sep 15, 2014 3:10 PM
15	I really liked learning about Kahoot It! and Google Classrooms. They will very helpful in the coming years	Sep 15, 2014 3:09 PM
16	Choice and having district people lead sessions Trainers were knowledgeable and flexible	Sep 15, 2014 3:08 PM
17	Variety of choices.	Sep 15, 2014 3:08 PM
18	Some of the teachers really understand how to differentiate and to provide handouts as well as present information.	Sep 15, 2014 3:06 PM
19	great selection. talented presenters with a grasp of knowledge. applicable content	Sep 15, 2014 3:04 PM
20	Going to lessons of interest	Sep 15, 2014 3:04 PM
21	Variety of topics offered. Good presenters.	Sep 15, 2014 3:03 PM
22	Google Drive 201, Document Camera (It was fun to try out all of the different	Sep 15, 2014 3:00 PM

Q3. What did you like about today? What went well?

	programs).	
23	I loved all of the classes that I took today. There are so many things I think are useful. I particularly liked the Chrome Apps in the Web. Since we are moving to Chromebooks this was helpful in finding alternative programs for ones I used to use.	Sep 15, 2014 3:00 PM
24	good review that I needed	Sep 15, 2014 3:00 PM
25	Liked the freedom pick my own course topics.	Sep 15, 2014 2:59 PM
26	I liked that we could pick which sessions were more applicable to us and go to those ones.	Sep 15, 2014 2:58 PM
27	Having a chose of what sessions to attend. The instructors were good about giving time to work and answering questions.	Sep 15, 2014 2:56 PM
28	Google Research	Sep 15, 2014 2:48 PM
29	More info on google. So many things we can do, but hard to incorporate all you learn. I really liked all of the Google Chrome/Cloud Apps. Google Drive was pretty limited so that gave quite a few options as to new apps kids can use to make all sorts of things not just docs/spreadsheets/presentations.	Sep 15, 2014 2:46 PM
30	I thought the presenters did a good job today of giving detailed examples that were relevant to the classroom. I also appreciated that most presenters had built in time for questions. When we did this in the Spring, there was no much time for audience questions.	Sep 15, 2014 2:45 PM
31	Lots and lots of information.	Sep 15, 2014 2:42 PM
32	I liked learning! There is so much out there that it is good to be 'trained' into it instead of having to muddle through/find things on our own. It was also nice that we could work along side of the presentation- all were 'hands on'	Sep 15, 2014 2:39 PM
33	Choice	Sep 15, 2014 2:38 PM
34	variety of sessions; ideas to apply to my classroom	Sep 15, 2014 2:12 PM
35	managing you tube videos	Sep 15, 2014 2:10 PM
36	Time to work on what we learned.	Sep 15, 2014 1:23 PM
37	Work time to create on Google.	Sep 15, 2014 1:20 PM
38	I liked the ability to have all the documents from some of the other classes that I did not take, in one area. I thought all of my	Sep 15, 2014 10:43 AM
39	Was able to experiment with some new tech programs and see how they could be used in my classroom.	Sep 15, 2014 8:37 AM

Q4. What suggestions do you have for future PD in technology and/or differentiation?

1	With technology, I think the whole district needs to be on the same page. Why does Indian Hills use weebly when the district is pushing for google classrooms yet others are still using moddle???	Sep 18, 2014 8:28 AM
2	Fewer sessions with more time in each session to apply what was just learned.	Sep 17, 2014 4:05 PM
3	Have fewer sessions with more time...they seemed rushed	Sep 16, 2014 6:26 AM
4	Keep the selection process up to teachers. The PD days and sessions are more applicable to what each of us needs in the classroom.	Sep 15, 2014 3:22 PM
5	Keep doing this it is a great way to further our knowledge!!! Thank you.	Sep 15, 2014 3:20 PM
6	None, today was the perfect amount of information and perfect timing.	Sep 15, 2014 3:18 PM
7	Keep allowing us to choose where we go so that we can get the most of out of the day. We are the only ones who really know what we can use in our classroom, and what will help us the most. Thanks!	Sep 15, 2014 3:15 PM
8	More relevant topics.	Sep 15, 2014 3:15 PM
9	Music Teachers do a day of show and tell for review of each instrument.	Sep 15, 2014 3:14 PM
10	Finale download to Smart Music.	Sep 15, 2014 3:13 PM
11	continued Google training	Sep 15, 2014 3:13 PM
12	I like the classes that give us time to learn about it and then time to play with it and figure them out ourselves	Sep 15, 2014 3:09 PM
13	It would have been nice to attend some of the sessions. I was happy to lead, but there were lots of sessions I was also interested in attending.	Sep 15, 2014 3:08 PM
14	As the district begins implementing NTN it would be helpful to have courses in it.	Sep 15, 2014 3:08 PM
15	To have the opportunity to have a printout to refer to.	Sep 15, 2014 3:06 PM
16	keep up the good work. maybe the last hour or two to spend in our classrooms :)	Sep 15, 2014 3:04 PM
17	Google classroom +++	Sep 15, 2014 3:04 PM
18	I liked today. Maybe have the sessions in categories such as differentiation, formative assessments, etc.	Sep 15, 2014 3:03 PM
19	More advanced classes.	Sep 15, 2014 3:00 PM
20	I really enjoy this style of PD. I learned so much and as we move forward I think it would be helpful to continue providing technology PD. This also helps us to become familiar with ways we can collaborate as teachers.	Sep 15, 2014 3:00 PM
21	I think it's been great!	Sep 15, 2014 2:59 PM
22	I would like more of a description of the classes. There was a little description	Sep 15, 2014 2:58 PM

Q4. What suggestions do you have for future PD in technology and/or differentiation?

but a lot of my classes covered the same material and so I would've picked a couple of different ones had I known that they were all so similar.

23	Keep offering choices and ways we can incorporate technology into our instruction.	Sep 15, 2014 2:56 PM
24	Less options more time in each one	Sep 15, 2014 2:48 PM
25	Pick one of these sessions (classroom/apps) and thoroughly go over them in the morning at each individual school. Then have staff actually develop lesson plans with their PLC's to incorporate this new technology in the afternoon. This would be something they would need to turn in to their principal and he/she could even come in on the day it was happening in class to observe how we've used this new technology in our classroom. Right now we are thrown so many different options that its actually difficult to fully incorporate any of them into your class unless it's pretty basic (like drive).	Sep 15, 2014 2:46 PM
26	I would like to see a bit more variety in classes, or a session specific to using the Chromebooks on a regular basis. I would also like to know exactly what the district's technology vision is for the next few years--are we moving everything toward Google? If so, I don't know how much time and resources should be spent on other forms of technology we are expected to use and update regularly.	Sep 15, 2014 2:45 PM
27	Do not bring back the YouTube 201 guy. Dry boring and uninformative.	Sep 15, 2014 2:42 PM
28	WE NEED TO KNOW WHAT IS IN STORE FOR THE FUTURE OF TECHNOLOGY IN THE DISTRICT. ARE WE GOING 1 TO 1? ARE WE GOING TO PROJECT BASED LEARNING (at Indian hills)? ARE WE GOING ALL GOOGLE? With all of the new stuff/technology/rumors, it would be nice to know and plan for the future. If we are going to be completely going digital, let us know! if it will still be an option or teacher choice, let us know. I would like to do more technology in the classroom but i dont want to do great things this year only for it to be a completely different program/style of learning next year. We need direction!! In the same sense, while it is good to see how to use it, it would also be beneficial to see HOW people are using this. Google classroom seems great but how are people best utilizing it (i know it just started....) There seems to be a lot of sameness- google forms is similar to kahoot. google classroom and IC have some of the same features... which are we to use? sometimes its an option overload	Sep 15, 2014 2:39 PM
29	maybe the afternoon to utilize the learning.	Sep 15, 2014 2:38 PM
30	continue having choice in sessions and time at the end of the day to try out the things you learned and see how and get help for how they apply to your classroom	Sep 15, 2014 2:12 PM
31	More special ed specific sessions.	Sep 15, 2014 1:23 PM
32	More advanced Google classes.	Sep 15, 2014 1:20 PM
33	need to have more coffee.	Sep 15, 2014 10:43 AM
34	Make sure to allow time for teachers to experiment within the class that they are	Sep 15, 2014 8:37 AM

Q4. What suggestions do you have for future PD in technology and/or differentiation?

taking.
