Q2. How will you apply the learning from today in your classroom?

1	By experimenting with new techniques to incorporate technological skills into my curriculum.	Sep 17, 2014 4:35 PM
2	make video compilations and re-mixes of performances	Sep 17, 2014 3:44 PM
3	Kahoot is great	Sep 17, 2014 6:52 AM
4	I will use it to help improve student achievement.	Sep 16, 2014 11:59 AM
5	tips and ideas will apply into my teaching	Sep 15, 2014 4:41 PM
6	Make recordings of student performances available via YouTube and apply what a learned with editing	Sep 15, 2014 4:33 PM
7	I would like to try Google Forms to do some pre-assessing (when our department gets to that point). In the mean time, i will probably use it for interest inventories, etc. Google Classroom is great but I feel like I need a lot more time to work and practice. Ditto to Calendar...	Sep 15, 2014 3:14 PM
8	-Formative assessments -how to run a grade book -Summative assessments - suveys	Sep 15, 2014 3:13 PM
9	Some of this applies well and some doesn't. I am hoping to use my youtube knowledge to help kids create projects.	Sep 15, 2014 3:13 PM
10	I learned info about google calendars, smartmusic, and you tube that I can definitely use in my classroom.	Sep 15, 2014 3:13 PM
11	The information I learned in Google Forms and Campus, I will be able to implement immediately. The rest will be something I tinker with as the year goes on and as time allows.	Sep 15, 2014 3:12 PM
12	Campus Instruction Beta was extremely valuable. I was able to create student groups for differentiation. I was also able to experiment with Google forms and may be able to use this for some pre-assessments.	Sep 15, 2014 3:11 PM
13	Student engagement	Sep 15, 2014 3:11 PM
14	formative assessments that collect my data for me. less grading	Sep 15, 2014 3:10 PM
15	Better able to use beta grades	Sep 15, 2014 3:10 PM
16	Use Chrome and Beta correctly.	Sep 15, 2014 3:07 PM
17	Using Kahoot in my classroom & editing videos for the classroom	Sep 15, 2014 3:04 PM
18	I plan to try to use Kahoot at least once this year.	Sep 15, 2014 3:03 PM
19	The Document Camera class was awesome! So applicable for class (for absent students or students who need to check papers while other students need help).	Sep 15, 2014 3:03 PM
20	I will try to use Google Forms but it is difficult because it does not have an equation editor. Also, I will definitely use the Document Camera features.	Sep 15, 2014 2:57 PM

Q2. How will you apply the learning from today in your classroom?

21	increase student learning and communication among my team	Sep 15, 2014 2:56 PM
22	I wanted to learn more about Google Classroom and had some ideas of how to utilize it. Unfortunately, it doesn't work quite how I need it to- so it may not be something I use.	Sep 15, 2014 2:54 PM
23	I will use google forms for tests in the future. I will use a google site to communicate with students and families.	Sep 15, 2014 2:52 PM
24	I learned valuable information that I did not know about my grade book, the document camera, kahoot and calendar.	Sep 15, 2014 2:39 PM
25	Majority of the classes were Intro Level basic material. I took the 200 level courseshoping for a class that helped me actually create things. Instead, the majority of the learning was stuff I am already using in my classroom.	Sep 15, 2014 2:31 PM
26	I plan to find ways to make selected resources available to my students (and to their parents), so materials will be available 24/7. I also want to get better at the research tools, so I can be better at teaching with them -- and with helping kids to ORGANIZE the materials that they find.	Sep 15, 2014 2:31 PM
27	I learned a lot about the new Infinite Campus Beta and how it can be helpful with grading and keeping track of my students work. I will definitely be able to use this in my classroom to communicate grades and scores with students and parents.	Sep 15, 2014 2:28 PM
28	Created my classroom website!! My students and I will use it every day. Also learned cool extensions.	Sep 15, 2014 2:13 PM
29	I am anxious to used shared docs with Google.	Sep 15, 2014 2:10 PM
30	All sessions apply to my job in some way. I'll be adding Google apps and extensions, using/teaching Diigo, and organizing my Google Drive.	Sep 15, 2014 2:10 PM

Q3. What did you like about today? What went well?

1	Instructors were well prepared in their subject matter.	Sep 18, 2014 7:02 AM
2	I really enjoyed the programming that took place. The variety in the classes helped me enjoy a very well-rounded experience and I was able to learn about a wide array of technology that will help me improve my teaching.	Sep 17, 2014 4:35 PM
3	I liked it being hands on, and choosing what I wanted to do	Sep 17, 2014 3:44 PM
4	variety	Sep 17, 2014 6:52 AM
5	I liked all the options and enjoyed all the modules I took.	Sep 16, 2014 11:59 AM
6	Love the technology focus - we should do this every year; especially if we're becoming a google-school-district. I like the format of five sessions for an hour each, ten minute passing, an hour and half for lunch. Speakers were all good (the ones I had). I like the laid-back atmosphere where it was learning, but also fun - not hardcore, serious meeting-sessions with business-world-like stern speakers. It's a great day and very valuable.	Sep 15, 2014 4:41 PM
7	Getting to choose the area of interest, and the fact that it is something hands on	Sep 15, 2014 4:33 PM
8	Lots of good information and the instructors were very good. Good to have more than one instructor in each class, one to teach and one to help those who need assistance with questions or computer issues.	Sep 15, 2014 3:14 PM
9	I loved the session selection!	Sep 15, 2014 3:14 PM
10	Almost everything Time to try the things being taught First PD I went to that I wasn't exhausted by the end of the day	Sep 15, 2014 3:13 PM
11	Learning about the power of google. Presenters were good.	Sep 15, 2014 3:13 PM
12	I liked that I could pick my own schedule. Useful information.	Sep 15, 2014 3:13 PM
13	I loved getting to chose what I would take. I also liked that one I took my first two courses, I realized a different course than I had signed up for slot 3 would be more beneficial. It was nice that I was able to slip in to the class anyway.	Sep 15, 2014 3:12 PM
14	The multiple sessions of the Google applications and Campus Instruction Beta allowed most people to participate in those that interested them.	Sep 15, 2014 3:11 PM
15	Great information!	Sep 15, 2014 3:11 PM
16	individual attention	Sep 15, 2014 3:10 PM
17	Hands on learning was great	Sep 15, 2014 3:10 PM
18	Chrome with Katie Seiberling was helpful.	Sep 15, 2014 3:07 PM
19	Went quickly	Sep 15, 2014 3:04 PM
20	I mostly loved the Kahoot class. The other classes didn't seem as relevant to me.	Sep 15, 2014 3:03 PM

Q3. What did you like about today? What went well?

21	The Google Calendar class was also very helpful!	Sep 15, 2014 3:03 PM
22	LOVED FLUBAROO LOVED Document Camera Google Forms was good I loved the amount of time in each session	Sep 15, 2014 2:57 PM
23	google calendars	Sep 15, 2014 2:56 PM
24	I liked learning different ways to use forms, but it probably didn't add anything to how I already use them.	Sep 15, 2014 2:54 PM
25	Very useful information.	Sep 15, 2014 2:52 PM
26	I liked that we were able to choose what we wanted to learn about.	Sep 15, 2014 2:39 PM
27	Not a whole lot. Felt like an advanced student in a intro level courses.	Sep 15, 2014 2:31 PM
28	I loved the fact that we could have time for hands-on learning (trial and error!) -- and that I we were able to use our own topics for much of that hands-on learning (e.g., in Online Research Tools, I had the freedom to search for Greek mythology). That was great, because that's something that I really NEED! =)	Sep 15, 2014 2:31 PM
29	I liked that we had the option to chose the classes we took today. That allowed us to learn about information we had a need and purpose for.	Sep 15, 2014 2:28 PM
30	Choice and variety of sessions. Schedule was good, with plenty of options and info to come back to later.	Sep 15, 2014 2:13 PM
31	I enjoyed the freedom of scheduling what I felt I needed to know. All went well.	Sep 15, 2014 2:10 PM
32	Sessions were highly relevant.I also like the opportunity for staff choice.	Sep 15, 2014 2:10 PM

Q4. What suggestions do you have for future PD in technology and/or differentiation?

1	Continue to offer interesting and innovative classes. The teachers were all very helpful and knowledgeable as well	Sep 17, 2014 4:35 PM
2	Maybe more time to work with what we learned	Sep 17, 2014 3:44 PM
3	fewer sessions of longer length too much info & too varied	Sep 17, 2014 6:52 AM
4	Wish we could do it again, so I could take others that I wanted to take. Thanks for organizing this. IT WAS AWESOME.	Sep 16, 2014 11:59 AM
5	No suggestions, although I registered late and missed out on a couple that got filled up fast - my bad, my fault. So if you offered MORE of the selected sessions, that would be nice. Thanks for all the time, work and planning for this event! We appreciate you! And thanks for the opportunity to give feedback.	Sep 15, 2014 4:41 PM
6	More of the same	Sep 15, 2014 4:33 PM
7	Too much information on one day. Feel like a student on the first day of school getting information in every class and not remembering much of any to it, just a jumble of a lot of information. Would prefer to have the sessions taught in our own building with our staff teaching and only do a couple of topics at a time so you can actually absorb the information and feel like you can apply it when you leave.	Sep 15, 2014 3:14 PM
8	I would love to have more time to work with the new stuff!	Sep 15, 2014 3:14 PM
9	Only problem-- sometimes not enough time to fully process info, try things out, etc. Also, sometimes we need students in order to really try it out. Chrome Book, please!	Sep 15, 2014 3:13 PM
10	Learning and doing go side by side in this PD setting. Some instructors did a lot of demonstrating, but didn't allow for embedded doing.	Sep 15, 2014 3:13 PM
11	Always make it as applicable as possible for all disciplines.	Sep 15, 2014 3:13 PM
12	Some of the instructors said they would give time to work on what we had just learned but ended up lecturing the whole time. It would have been nice in those particular instances to get to try the new information out.	Sep 15, 2014 3:12 PM
13	Expand the session for Campus Instruction Beta to allow for work time to practice.	Sep 15, 2014 3:11 PM
14	More time to practice....I had an instructor who messed something up and was not able to help me or fix what she did wrong and that was very frustrating for me!!!!	Sep 15, 2014 3:11 PM
15	loved it.	Sep 15, 2014 3:10 PM
16	None	Sep 15, 2014 3:07 PM
17	I felt like the choices were repeats of last year or tailored for elementary aged students. I do not feel like I am coming away with as much as I did last year.	Sep 15, 2014 3:04 PM
18	I think it's good to have days like this with lots of ideas in one room,	Sep 15, 2014 3:03 PM

Q4. What suggestions do you have for future PD in technology and/or differentiation?

brainstorming.

19	Basic classes (yes, even more basic than the 101 classes) for some of us who do not pick up this technology as easily.	Sep 15, 2014 3:03 PM
20	A few sessions were full. Maybe gauge interest and create more sessions based on the pre-assessment interest survey. Ex: YouTube was full. Good day overall.	Sep 15, 2014 2:57 PM
21	more time, one less session	Sep 15, 2014 2:56 PM
22	I see how today was supposed to be differentiated. However, I think it fell short. The 201 classes seemed like 101 classes to me other than the Forms one. I unfortunately didn't take much away from the day.	Sep 15, 2014 2:54 PM
23	I would like more time to work on this. It is hard to implement some of these things because they take a lot of time to setup.	Sep 15, 2014 2:52 PM
24	Things like google 101 went through information way too fast. Some sessions needed to be longer as we received more information then we could comprehend.	Sep 15, 2014 2:39 PM
25	Have more advanced classes that will actually help me.	Sep 15, 2014 2:31 PM
26	Differentiate the professional development (i.e., give lots of options for people to pick and choose from) -- like today! =)	Sep 15, 2014 2:31 PM
27	Fewer classes in the day so that we could have more time in each class. It was a lot of information at once and I really would have liked to spend time asking more questions and getting comfortable with what I was learning about.	Sep 15, 2014 2:28 PM
28	Would love a day like this at least once a year!	Sep 15, 2014 2:13 PM
29	We need to do this again. There were many sessions that I still wanted to take but didn't have room.	Sep 15, 2014 2:10 PM
30	Possibly built-in time to play with tools or plan instruction with or around tools. ?	Sep 15, 2014 2:10 PM
