Q2. How will you apply the learning from today in your classroom?

1	I will use Google technology to communicate with teachers, parents and students.	Sep 18, 2014 12:07 PM
2	By actually implementing what I learned.	Sep 18, 2014 8:04 AM
3	My classroom is receiving Chromebooks shortly--I will use today's training to help kids get used to Google Docs, Google Classroom, Google Slides, etc.	Sep 18, 2014 8:00 AM
4	I will set up a google classroom. I will also use the information about Infinite Campus Beta to help grade students.	Sep 17, 2014 3:47 PM
5	Expand my use of the three basic Google products: Slides, Docs & sheets.	Sep 16, 2014 12:55 PM
6	Lots of exciting potential to focus our students' attention with research. Excellent presentation by Kristine Milburn and Shannon Johnson on reserch skills. Also glad for the opportunity to learn more about Google Classroom in anticipation for Chromebooks in English classrooms.	Sep 16, 2014 12:19 PM
7	Create a google classroom + direct instruction on google research searches	Sep 16, 2014 9:04 AM
8	I went to classes on online quizzes, checking for understanding options... I'll see which one works best and use it in class to check in with students and see what they understand and what we still need to explain...	Sep 15, 2014 3:21 PM
9	I learned several things in each session that I can use.The smart music session will be especially helpful. I will use things from all my classes...some more than others.	Sep 15, 2014 3:17 PM
10	Wow! Beta Google Docs...lots to do so little time.	Sep 15, 2014 3:13 PM
11	I plan to finish putting together my class website.	Sep 15, 2014 3:13 PM
12	I set up Google Classroom and want to put daily assignments on the drive.	Sep 15, 2014 3:11 PM
13	Creating Pre-Assessments in Google Forms	Sep 15, 2014 3:09 PM
14	I understand gradebook much better. I can create a website for my classes. I can communicate with parents through my website. I can use "Kahoot it" to make fun games for students.	Sep 15, 2014 3:08 PM
15	I have been using Google Classroom and intend to use other Google Extensions in my classroom.	Sep 15, 2014 3:08 PM
16	I will be able to use the SMARTMUSIC information for student practice and assessment both (especially formative).	Sep 15, 2014 3:05 PM
17	Google Drive, Google Slides, Google Docs, Chromebooks, Beta.	Sep 15, 2014 2:56 PM
18	I found the sessions on the IC beta to be helpful.	Sep 15, 2014 2:56 PM
19	With the addition of Chromebooks in the next couple of weeks, much of the features will come in handy to instruct students.	Sep 15, 2014 2:54 PM
20	Taking more formative assessments on the computer into my classroom	Sep 15, 2014 2:54 PM

Q2. How will you apply the learning from today in your classroom?

21	Helping those I coach to set up and manipulate certain Google features.	Sep 15, 2014 2:50 PM
22	I plan on using Infuse Learning during my study skills class to do a formative assessment on what they are learning in their gen ed classes. I plan on using google calendar to keep myself organized with my IEP meetings and other meetings. I could maybe create a calendar that I could share with parents on due dates, etc? I hope to set up Google Classroom to help with writing - and possibly reading - probes.	Sep 15, 2014 2:41 PM
23	I plan on using the google classroom and some of the social skills apps in my classroom. Due to me being a sped teacher, I can use a lot of it to differentiate amongst my students.	Sep 15, 2014 2:40 PM
24	I will hopefully get an updated document camera so I can record video with it and use that for instruction and for absent students. In Spanish II we will be doing a video project this semester and I will use YouTube.	Sep 15, 2014 2:25 PM
25	I can use some of the google extensions in my class to eliminate the ads.	Sep 15, 2014 2:20 PM
26	I would like to use google docs and/or Flubaroo for formative assessment before and during the teaching of a unit.	Sep 15, 2014 2:17 PM
27	I will be using the document camera (finally) to help assist with lessons and youtube videos will be easier to include now that I know how to edit the content that I would like.	Sep 15, 2014 2:12 PM
28	The changes to the gradebook will be helpful when we switch over. Transition to the google classroom.	Sep 15, 2014 2:07 PM
29	Every second of every day.	Sep 15, 2014 2:02 PM
30	Lesson preparation	Sep 15, 2014 12:59 PM
31	I can apply all the things I learned today in my classroom and outside of it as well.	Sep 15, 2014 9:23 AM

Q3. What did you like about today? What went well?

1	It was fast paced and had interesting teachers.	Sep 18, 2014 12:07 PM
2	Some of the sessions I attended were informative and novice.	Sep 18, 2014 8:04 AM
3	I liked the opportunity to choose my sessions-also the diversity of sessions.	Sep 18, 2014 8:00 AM
4	That we could choose our sessions and the long lunch to process learning with colleagues.	Sep 17, 2014 3:47 PM
5	Classes were aimed at real world classroom situations. I was able to talk to a tech and get some laptop issues resolved.	Sep 16, 2014 12:55 PM
6	Choice.	Sep 16, 2014 12:19 PM
7	I liked the variety and I liked the morning learning time.	Sep 16, 2014 9:04 AM
8	choices were good. having a bit of time to try things during class was nice, I just need more time to sort through the new info. I liked that you could go to the media center and try things out. I'd have done that if I didn't have so many things on my "go to" class list.	Sep 15, 2014 3:21 PM
9	I liked having choices and being able to attend classes that will be applicable to my content.	Sep 15, 2014 3:17 PM
10	All the classes. Some thinking that technology we learned last year is now not supported or the district is going in a different direction. Poor planning.	Sep 15, 2014 3:13 PM
11	I liked the different google apps. It was also good to go to IC.	Sep 15, 2014 3:13 PM
12	I thought the google classroom was taught in a way that allowed me to follow along and actually accomplish something. Jackie's class on Beta grade book was EXTREMELY useful. I feel like I can use it now and not fear it so much.	Sep 15, 2014 3:11 PM
13	Extensions and Apps for Chrome.	Sep 15, 2014 3:09 PM
14	The classes were interesting and fun. They were just the right time. I learned a lot. I liked how they offered 101 and 201 classes in order to get a deeper understanding on some topics.	Sep 15, 2014 3:08 PM
15	Some of the courses had valuable and relevant information.	Sep 15, 2014 3:08 PM
16	I liked the menu format.	Sep 15, 2014 3:05 PM
17	Differentiation. Choice. Reinforcement of learning last year.	Sep 15, 2014 2:56 PM
18	I liked that there was a variety of courses to choose from. I was able to schedule courses that I thought would best fit my needs.	Sep 15, 2014 2:56 PM
19	The facility works nicely for this style of in-service.	Sep 15, 2014 2:54 PM
20	i got some good time to work on things that and see some new things that will work.	Sep 15, 2014 2:54 PM
21	I learned at least a little something from each class. Intrigued by Google	Sep 15, 2014 2:50 PM

Q3. What did you like about today? What went well?

Classroom and hope that it continues to improve.

22	I love the option to choose where we want to go based on what we want to learn. I LOVE learning about technology, and the district has set up so many great options. I also like having some time in each class to practice the app/system that was shared. I liked having an extra person in the back of the room in one of my classes - to help answer side questions (or two teachers). I liked having the website on the bitly link.	Sep 15, 2014 2:41 PM
23	Taking an Infinite class on the new infinite campus. It really helped a ton especially the beta part of it. Didn't know there was a lot more to it.	Sep 15, 2014 2:40 PM
24	I liked the choices.	Sep 15, 2014 2:25 PM
25	Location is nice since all the classrooms are fairly close.	Sep 15, 2014 2:20 PM
26	Google forms and google drive classes went well. I feel as though my questions were answered and I have a better understanding of those two things.	Sep 15, 2014 2:17 PM
27	Learning how to use apps and technology that people in my building can't help me with. Moving around and learning useful tools in PD.	Sep 15, 2014 2:12 PM
28	Getting to pick our classes that we wanted to focus on.	Sep 15, 2014 2:07 PM
29	Everything.	Sep 15, 2014 2:02 PM
30	Hands on/Playing	Sep 15, 2014 12:59 PM
31	Everything. The presenters were great and the easy access to the rooms.	Sep 15, 2014 9:23 AM

Q4. What suggestions do you have for future PD in technology and/or differentiation?

1	Some of the coaches were too fast in giving instructions. It was hard to catch up and follow. them.	Sep 18, 2014 8:04 AM
2	Continue to use the experts we have in the District to lead PD--thanks!	Sep 18, 2014 8:00 AM
3	Some time to meet with PLC's to discuss implementation of learning, possibly in lieu of the last afternoon session.	Sep 17, 2014 3:47 PM
4	Continue the Tech theme.	Sep 16, 2014 12:55 PM
5	More time to play with what we've learned! Maybe only 3 sessions with time in the afternoon to meet in PLC's to share, implement, process ideas/notes from the day, and maybe makes changes/create materials.	Sep 16, 2014 12:19 PM
6	5 sessions was too much! 3 sessions + an afternoon to process and apply would be very beneficial!	Sep 16, 2014 9:04 AM
7	I'd like more info about image use and copyright. I'd like to use images in my quizzes online, but worry about using images/photos that I did not take. I really don't like the way the google forms has it's info in the spreadsheet. I know about the flubaroo, but that's not what I mean. What other things can help organize data correctly/ less visually cluttered? Update on Moodle listed this summer, but not sure where to get the info on the new things. Can we use the phone app to use our moodle things? Thanks.	Sep 15, 2014 3:21 PM
8	It is hard for me to stay focused for five of these classes in one day. I am probably on the low end of technological skills so it is a large amount of info for me to process all at once.	Sep 15, 2014 3:17 PM
9	More time as always to work and apply or longer sessions to work and explore in groups...etc. to learn the programs. Often we learn on PD day and are in the year so....don't get time to implement with new lessons and stuff must wait to 2nd semester or when have time to look at something. Perhaps encourage schools to use dept time for learning or provide Wed to re-look at things. Thanks!	Sep 15, 2014 3:13 PM
10	Allow more work time when you start working with a new piece of technology.	Sep 15, 2014 3:13 PM
11	The session on working in the cloud using google apps was way to fast. She should have slowed down and just demonstrated a few useful apps instead of presenting every app possible	Sep 15, 2014 3:11 PM
12	Less assumptions on the instructors part for how much we know or if we are keeping up with them.	Sep 15, 2014 3:09 PM
13	The tools and resources are great, but we are not 1:1 with computers. It is very difficult and almost impossible to use some of these tools in the classroom. Being 1:1 would help students learn and allow teacher to differentiate instruction. much better.	Sep 15, 2014 3:08 PM
14	Offer new courses that have not been offered over and over again.	Sep 15, 2014 3:08 PM
15	Even with the menu format, I found I went to two sessions I thought may be of some benefit, and when I got there, there was no way for me to use the information in my class. I would have liked some suggestions related to subject	Sep 15, 2014 3:05 PM

Q4. What suggestions do you have for future PD in technology and/or differentiation?

	area prior to enrolling, or more time to work with and use the information from the one session that did apply. My entire morning ended up being unfruitful.	
16	1/2 a work day to absorb and practice in close proximity to initial learning.	Sep 15, 2014 2:56 PM
17	Try to space topics out more. Having a similar day last Feb is too close together. I was not looking forward to today because it seemed repetitive.	Sep 15, 2014 2:56 PM
18	Some of the AEA presenters went a little fast in a couple of the sessions. Generally went teachers presented, they were more understanding of the "slow" learners and weren't so click-happy (jumping everywhere on the screen so fast).	Sep 15, 2014 2:54 PM
19	Have more options for people who are more advanced in the google world. the 201 classes were a good start but not necessarily applied to my class. I enjoyed the higher level content because i am very familiar with the lower level stuff.	Sep 15, 2014 2:54 PM
20	CPR/First Aid certification.	Sep 15, 2014 2:50 PM
21	I wish I could have taken more classes -- maybe make them 45 minutes long?	Sep 15, 2014 2:41 PM
22	Some of the classes were the same from last year. So, there wasn't really that many options if you took most of it last year.	Sep 15, 2014 2:40 PM
23	Make more announcements about signing in and have the sign out sheets here earlier. :)	Sep 15, 2014 2:25 PM
24	I could use more in depth training with Infinite Campus.	Sep 15, 2014 2:20 PM
25	Let departments work together in the afternoon to create things together that would benefit their students and utilize new found knowledge.	Sep 15, 2014 2:17 PM
26	Continue teaching technology tools with sign up based on needs/wants.	Sep 15, 2014 2:12 PM
27	Things where we get up and move around. Sitting in a classroom all day isn't something we would expect for our students so why make teachers do it?	Sep 15, 2014 2:07 PM
28	Maybe more snacks. Craig Bittick for Mayor!	Sep 15, 2014 2:02 PM
29	More Handouts	Sep 15, 2014 12:59 PM
30	More course offerings	Sep 15, 2014 9:23 AM
