7	Not sure....whenever I might have time to actually try some of these things	Sep 15, 2014 2:57 PM

Q4. What suggestions do you have for future PD in technology and/or differentiation?

1	There needs to be some "work time" built in for teachers. If we don't use it right away, we will forget it.	Sep 17, 2014 5:19 PM
2	none	Sep 16, 2014 7:58 AM
3	Can't think of anything.	Sep 15, 2014 7:17 PM
4	Having all staff at one building makes parking very difficult. Maybe divide between more than one building? Once we begin to use Google Docs/Drive more, we will need training on creating folders/sharing with an entire class, etc.	Sep 15, 2014 3:48 PM
5	It would be nice to have an additional day for directly applying the knowledge gained at this PD training. It is easy to get back into the old habits of the way we have always taught without dedicated time for the specific purpose of applying what we've learned in this PD to our classes that we are currently teaching.	Sep 15, 2014 3:15 PM
6	Video tape the presentations so that we can view and learn from sessions we did not attend. For example, sometimes one presenter is better than others.	Sep 15, 2014 3:08 PM
7	All staff need specific knowledge about what is "coming up" in terms of technology requirements and changes. Rumors are swirling, but little direct communication is happening.	Sep 15, 2014 2:57 PM
