186	I like that some of the teachers still decide to use google classroom, since I feel that it is more reliable. The teachers were learning how to use canvas right along with the students so no one knew how to do anything, and simply its way to complacted for what we need in the classroom. Half the time something goes wrong and we cant access the assignment or we just arent taught how to use it. It also bugs me that some of the teachers abuse their authority when it comes the lanschool. I know what it is there to keep us on task but we feel that all of our rprivacy is getting taken away because of that handful of students that mis use the right.	4/17/2018 9:05 AM

426	You're doing a great job on everything Mr. Abeling!	4/15/2018 9:51 PM
427	Canvas is a wonderful tool to use for certain assignments in and out of class, as is Google Classroom, I have one class that uses Classroom and I personally don't mind it at all, even though it doesn't really change anything, it's nice to have some diversity. I think that Classroom is simpler than Canvas when looking at documents (which is pretty much the whole time), so it can be nice for it to be a little easier part of the day. Other than that though, which isn't a big problem, I like them both equally but can predict Classroom being taken out of circulation.	4/15/2018 9:51 PM
428	Using echo and using chromebooks for work.	4/15/2018 9:48 PM
429	It's helpful that so easy to access at any time.	4/15/2018 9:47 PM

432	echo	4/15/2018 9:40 PM
433	Going 1-1 with Chromebooks seemed pretty useless to me at the beginning of the year, but I really like it now. I appreciate that we're allowed to decorate our Chromebook cases with stickers, too. I didn't like switching from Classroom to Canvas in the beginning of the year either, and although it would be more convenient to be able to use a Google program because so much else of what we use is Google-based, I now understand how much easier organization usually is with Canvas.	4/15/2018 9:35 PM
434	Using chromebooks and canvas to centralize assignments and resources	4/15/2018 9:29 PM
435	I like how canvas is used and how most of my classes have material on there for us to use.	4/15/2018 9:29 PM
436	Updating infanite campus	4/15/2018 9:25 PM
437	Providing everyone with chromebooks was pretty huge. It's also nice that we aren't forced to use them, the students have the choice of whatever device they have. The charger situation is also complicated but the schools (or at least the high school) have been dealing with it well.	4/15/2018 9:25 PM
438	The internet is semi more reliable than last year.	4/15/2018 9:24 PM

Tech Survey for Students 2018

472	It is nice that we have chrome books so we can do almost all our work online and so we won't lose our work. They are a great resource and I am very thankful that we have them. It is also very helpful that the teachers have really nice projectors that help us see the work and help our understanding. It is also very nice that we have printers all around the school so in case we do need to print out a paper we can go to the closest printer and not have to go to a printer that is on the other side of the school. You are also doing a good job at getting a chrome book back to a student if they break theirs. It is also nice in some classes when the teacher has the microphone because in some classes like humanities since its a big class it's sometimes hard to hear the teacher.	4/15/2018 7:49 PM
473	I think canvas is very nice because it is so organized since I am an organized person. It helps me keep track of my classes and assignments. I was apprehensive about the chrome books at first, but as the year has gone on I have realized how valuable of a tool they are during class.	4/15/2018 7:48 PM
474	Loaned chrome books tv's and projectors that can connect to the tech	4/15/2018 7:47 PM

1	we should have charging stations for our chrome books because a lot of students forget to charge them at home or they just die at school, staff should make it easier for students to use the computer labs because nobody uses them and some students aren't close enough to the media center and it would just be easier for students, especially if they are just doing something fast like printing something off for a class. Also our librarians are extremely disrespectful and rude and from what ive seen sitting in the library, students who go to check out a chrome book get a lot of crap for asking to borrow a chrome book and it makes us students feel like crap.	5/8/2018 1:42 PM
2	Don't EVERYTHING online (it's not right now but just for future reference)	5/8/2018 1:38 PM
3	idk	5/8/2018 1:37 PM
4	idk sometimes the wifi goes out when we all need it. I know it's not the school's fault, but it adds an extra layer of stress. I don't think we should be using the tech as much as we do. I feel like a lot of my homework depends on the internet, and a lot of the times the internet in general is not all that reliable. Also, the teachers put all their work in different folders and stuff in canvas and it can be difficult to keep track of whats where for what class.	5/8/2018 1:37 PM
5	I think that google classroom worked better than Canvas does and I think that the school district should go back to it. The one thing I do like about canvas though is the calendar, it allows me to see all the upcoming assignments and tests which helps me a lot because I forget to use my planner often.	5/8/2018 1:36 PM
6	Improve the Chromebook's and stop blocking everything on Chrome Web Store	5/7/2018 2:28 PM
7	put back on are messages thing on gmail again	5/4/2018 4:48 PM
8	Better wifi because the wifi doesn't work in certain rooms of the school.	5/4/2018 9:49 AM

30	let people not do any games not related to math, science, research, typing, and other subjects you have	4/24/2018 4:29 PM
31	let us be on our Chromebooks when we need it because that's part of why us students cant finish our work.	4/24/2018 2:57 PM
32	Bigger windows laptops	4/24/2018 11:20 AM
33	Well, for one I have always had my YouTube name as Mii the BD (pronounced Me the B.D.) for a reason, but ever since the administrator changed that accessibility, I've been PISSED! Second, all of the themes on the Chrome Web Store have been blocked (as well as most of the apps and extensions), so I have to use infinity new tab, which really sucks (but at the same time it's ... okay). Third, some of the most fun games that I play during my own time have also been blocked by the administrator. And all three of those things make me REALLY PISSED OFF!!! So please fix those soon, because nobody likes a madman.	4/24/2018 10:38 AM
34	I would suggest getting laptops. The Chromebooks do serve a purpose, but there are a lot of things we can't do. Plus, the Chromebooks have had some problems with loading websites and lagging a lot.	4/24/2018 9:27 AM

55	The biggest issue with technology is the unreliability of the internet connection. I don't know if there is a convenient way to improve that cheaply but there needs to at least be a system put in place so that the whole school is never trying to use it at once.	4/22/2018 11:36 PM
56	nothing	4/22/2018 4:35 PM

136	chromebooks being more relible or not at all	4/18/2018 11:05 AM
137	mouses for every child i fell it helps a lot	4/18/2018 10:45 AM
138	I liked it more when we used google classroom. That was the one place that all of the teachers would put their assignments. Canvas is visually unappealing, and it's harder to understand.	4/18/2018 10:44 AM
139	let us have a little more freedom with addons and maybe i dunno, ADD CHROME BACKGROUNDS FOR GOOGLE? you guys block everything we do that isnt even slightly educational!	4/18/2018 10:32 AM
140	I don't know more than a handful of people who haven't had issues with their chromebooks at some point this year, which is a large inconvenience to some who do not have technology at home. Additionally, it is largely agreed on by students that Google Classroom was better than Canvas, and many of the tech problems we've had this has been due to Canvas, which in turn affects students' grades and teachers' ability to teach.	4/18/2018 9:31 AM
141	I don't like Canvas and my friends don't either. It's not very user friendly. I would choose Google Classroom 100x over Canvas.	4/18/2018 9:28 AM
142	To make printing a little more accessible	4/18/2018 9:12 AM

257	Although we are very lucky to have the technology that we do, it can be very frustrating. It is sometimes unreliable because of the wifi connection we have at school and hard to get work done when the wifi you have at your house is not very good. It also has a very big strain on my eyes especially science ive noticed that I have to stay up for longer periods of time being on my chromebook lae at night which i have noticed has a very big stain on my eyes and often gives me headaches. I also think it is a bit contridicting that often times adults say we should get off of technology and get outside but then give us chrombooks to be on for 7 hours of our day staright. 312	Do not like canvas, class was much better with google classroom and more teacher instruction. I feel that Google drive and chromebooks are good, but canvas and infinite campus are problematic.	4/16/2018 11:04 AM
313	I hate the new update where it turns off every time you shut the lid. I liked it before when you just had to enter in password. Also Internet is slow in certain areas of the school. Also the cromebook are limited in what they can do. The track pad sucks I have bought my own mouse bc it sucks so bad.	4/16/2018 11:02 AM
314	Get rid of canvas. Just use google classroom. It's way easier to use and understand.	4/16/2018 10:58 AM
315	I am in 7th grade doing Pre-Algebra, so we don't do go math until next year. But, my friend needed help with her homework, so I helped her. I felt IT WAS RIDICULOUS what they are putting in those books. Not only that, I also like google classroom MUCH better than Canvas. It is much harder to get around and understand how it works. I am talking with other classmates of mine, the like the google stuff better than Canvas. I hope you take that into consideration.	4/16/2018 10:55 AM

322	Use google classroom instead of Canvas. Google classroom offers apps that students can use on their phones when they don't have their chromebooks with them, and the Canvas app is not reliable whatsoever. Google classroom is directly connected with google docs, slides, spreadsheets, etc. Also, many of my peers (and teachers) express how confusing canvas is and how much more user-friendly google classroom is. Many of my teachers still use google classroom despite the district buying canvas, so I think it is kind of a waste.	4/16/2018 10:37 AM
323	Make it easy to find assignments. Take out all the useless folders like modules, etc the stuff we don't use. Teach the teachers and the students how to use it.	4/16/2018 10:36 AM

417	I believe Google Classroom was a much easier and more reliable option for teachers and students. Although valuable time has been spent training teachers about Canvas, I believe classes would run much more smoothly and effectively on Classroom.	4/16/2018 12:15 AM

423	none	4/15/2018 10:44 PM
424	Less canvas it's too good	4/15/2018 10:39 PM
425	I would suggest to continue using current technology, but I think Canvas is sometimes confusing and teachers don't always explain how to use it effectively. I also think textbooks are useful in some classes and I would encourage keeping at least some in each classroom that uses them rather than going completely digital.	4/15/2018 10:37 PM
426	The chromebooks can take a long time to start up (this may be personal fault though, I do leave quite a few tabs open but I didn't know if there was a way to fix this), and some printers only print about half the time (the art commons one is especially sporadic). I wish the chromebooks could have a faster way of logging in (like an abbreviated pin after not fully shutting down between classes) to make it easier to start them up	4/15/2018 10:33 PM
427	Chromebooks seem to be deteriorating as the year has progressed. I don't like how printing is sometimes not an option on my Chromebook depending on which document is open. The updates on Chromebooks are also kind of annoying because they change the sign-in requirements and tab-saving options. For instance, after one of the updates, my computer no longer saved the tabs I had open prior to closing it, which I eventually changed in the settings. Also, after another update, the sign-in requirements changed so that now, when I close my computer and then open it again, I have to sign in again rather than just inputting my password. Overall, the Chromebooks have been very useful, but these little changes are bothersome.	4/15/2018 10:31 PM
428	Bring back Discord.com	4/15/2018 10:27 PM
429	The chrome books are very slow to start up when they are turned on. I am not sure if this can be fixed but it takes several minutes for my pages to reload.	4/15/2018 10:26 PM
430	The wifi at Valley is sometimes unreliable and will cut in and out multiple times during the day in many parts of the building. Also, the use of Canvas has increased the issue of academic stress due to teachers having the ability to set due dates and times whenever they would like (example: Sundays at noon).	4/15/2018 10:17 PM
431	I feel like blocking games on the Chromebooks would help kids focus more. During group project work time kids play around instead of getting work done. On the off periods it could be turned on, but for any class periods the student's games would be locked.	4/15/2018 10:13 PM
432	Personally, I don't like canvas, it feels unintuitive, and most teachers seem to only half understand how to work the program, despite their best efforts to understand it	4/15/2018 10:03 PM
433	Think that we should still be using google classroom because it is easier for use to access for are links to quiz reviews and other homework and and there we can have better and faster ways	4/15/2018 10:01 PM
434	I don't really like the technology that we're using and I'd rather just not use it at all	4/15/2018 9:55 PM
435	But as much as I do love Google Classroom and Canvas, I believe it should be more balanced with paperwork on occasion. As much as I think forests should be preserved (because that is very important too), students' handwriting is getting worse and worse. That should be a skill taught when kids are younger, but it should persist through Junior High and High School. I do think that writing papers is a lot easier on Google Docs but small journal entries or creative writing projects could surely be done by hand.	4/15/2018 9:51 PM

441	Sometimes random websites will be blocked when I use my school account, which is always a bit frustrating (though I assume the school uses an external program to sift through pages for appropriateness, and it's usually accurate). Also, it would be nice if each teacher had a few Chromebook charging cords that were to stay in their rooms so it would be easy to recharge your computer if it's running low or dead instead of needing to deal with the hassle of finding a peer who's willing to lend one or trying to get a loaner from the library.	4/15/2018 9:35 PM
442	Make it so chromebooks don't shut down when closed so they don't take several minutes to load everytime they're used.	4/15/2018 9:29 PM

445	Get every teacher on the same page about what website your using, I use a different one for all four of my core classes	4/15/2018 9:25 PM
446	A thought of mine for a while has been about Valley's "Hall is Fame" interactive touchscreen thing in the gym hallway. I just think it was a waste of money. Not once have I ever witnessed someone use that thing, even as a joke. Of course it's been constructed and there's not a reason to sell it so that won't happen, but just a thought from a student's perspective: spend smarter.	4/15/2018 9:25 PM
447	Google Classroom is better than Canvas.	4/15/2018 9:25 PM
448	Canvas is very slow and laborious to use. Teachers aren't constantly using one program. When canvas is used it's simply because teachers are required to. Google classroom is much more affective and user friendly. Chromebooks are also cheap and aren't the most reliable and student friendly (in the way of sturdyness).	4/15/2018 9:24 PM

458	My chromebook is frequently slow or not working, which is very hard because all of our work it on the chromebook. I prefered google classroom to canvas very much. Canvas is kind of a pain and I don't like how it's set up. I liked how things were last year better. I don't like carrying my chromebook around everywhere because it takes up a lot of room and if I forget to charge it then that's a pain too. My biggest suggetion is to go back to how things were last year because everybody liked it better and everyone complains about how it is now.	4/15/2018 8:49 PM
459	Grades inspired faster in campus. Make sure students and teachers both know how to use canvas, it is still a hassle.	4/15/2018 8:48 PM

462	The internet bandwidth occasionally has issues handling Valley's volume of students, especially during peak usage times such as advisory. Also, the new projector installations are indeed much nicer, but many of them are too bright and need to be dimmed because it is hard for students to look at it for extended periods of time.	4/15/2018 8:40 PM

470	Move away from technology as you get later in your school career, allowing for students with little to no internet access to do their work.	4/15/2018 8:20 PM
471	I think we should improve the printers in the school. We should better and more imprinters in the english and language area because those classes tend to print more papers than other classes such as science which is located on the 3rd level away from the english area. I also think that we should somehow improve the wifi so that it can handle more students. I also think that we should have more tech people available at Valley.	4/15/2018 8:18 PM

483	Canvas is difficult to manage effectively, with many teachers not knowing how to properly use certain features. It is also a hassle to find everything you need to easily. I found that Google Classroom worked better the years beforehand, and that would be a better route than Canvas.	4/15/2018 7:52 PM
484	We have had at least three times this year where our bell broke so maybe make sure that won't happen because it gets very confusing when you don't get the signal to go to your next class.	4/15/2018 7:49 PM
485	Just getting teachers to know how to use canvas so we don't have to spend the whole year trying to teach them as classes go on. Most teachers understand it, but a few are still getting the hang of it even though it has been a whole year.	4/15/2018 7:48 PM

497	Better internet to uphold all of these laptops would be nice.	4/15/2018 7:29 PM

501	Maybe add tablets or something.	4/15/2018 7:21 PM
502	Not everything needs to go to canvas!!! It's not always helpful to do it that way. Classes such as math, fine arts classes, or classes like PE where there's nothing you turn in, shouldn't have Canvas unless the teacher thinks it's necessary and adds more clutter. Teachers also shouldn't be forced to use it if it doesn't work well for them. Chromebooks are cheap, they work well, and are great tools for those who can't afford to use them. However all the supervision on it is a bit... excessive. They also tend to have those big crashing episodes or won't hook up to wifi unless they want to. I guess what I'm saying is that the chromebooks should probably be run more privately for efficiency reasons, but that could also be expensive so this is only a recommendation.	4/15/2018 7:20 PM

514	Whoever made the decision to log students out of their chrome books when the lid closes and admin enforce this has to be out of their mind. Do not log us out when we close our chrome books — it saves students a lot of time. Also, Google classroom was perfect. With Canvas, added functionality doesn't make it good— Canvas is too much— a bunch of assignments to make use of a glitchy user interface and various google apps connected when we could just use the apps separate from Canvas. So, curtail Canvas ASAP and go back to google classroom.	4/15/2018 7:09 PM

517	Fix the WiFi there are too many times that the WiFi lagged and crashed while we were working on homework	4/15/2018 7:06 PM
518	None.	4/15/2018 7:03 PM
519	None	4/15/2018 6:56 PM
520	None really	4/15/2018 6:55 PM
521	Improve WiFi reliability; More teacher training for canvas, i.e. how to make modules and how to remove unneeded things and use the calendar; Improve compabitibility with students who choose to use their own laptops	4/15/2018 6:52 PM
522	Get better computers, let us have more freedom with our computer, and don't spy on us on our chromebooks during class, it's creepy, and it's our own fault if we don't pay attention in class.	4/15/2018 6:51 PM
523	Remove chrome app/extension blocking, if we wanted to play games or something we would just go to a website, not use an extension. Plus, sometimes I need to use one for programming and I just don't have time to fill out a request stating why I need an extension. If you don't trust us, just make more harsh punishments if a student steps out of line.	4/15/2018 6:51 PM
524	I am very disappointed with the descision to remove echo for students next year. Echo is an amazing platform and I feel that no other platforms works with our NTLOs like Echo does. I also think we need better computers than the chromebooks we have now. It takes so long to load any website. We also needn't more reliable WiFi because it drops all the time. The desktops we have run great, but we need better video editing software than just Windows Movie Maker. It would be great to have a better way to access our H drive other than the home.wdmcs.org website that is very outdated. I also think the district should provide a mobile app with announcements, links, and other important information.	4/15/2018 6:50 PM
525	I strongly dislike canvas. Classroom is much easier to navigate than canvas and it is nicely organized. It is also really annoying that several of my teachers post some things on canvas and others on classroom. I think that we should just go back to everyone using classroom.	4/15/2018 6:49 PM
526	More reliable internet connection and better access to tech help for people not using a school issued chrome book.	4/15/2018 6:49 PM
527	I think everything is fine. Although, this probably won't make a difference but a lot of students (including myself) like Echo way more than Canvas.	4/15/2018 6:46 PM
528	Not everyone has internet at home so having all homework assignments online is problematic. Also the internet runs slowly at school often.	4/15/2018 6:45 PM
529	Not everyone has internet at home, so all assignments being online can be problematic. Also it would be interesting if we had access to more powerful computers for running more hefty programs that deal with students interests, ex: animation software	4/15/2018 6:45 PM
530	WiFi that works in the area around the school building. A class I am in decided to spend the day just outside the PAC doors to enjoy the first warm day. However, the WiFi that's works on in classrooms just inside the exterior walls is nonexistent on the outside.	4/15/2018 6:45 PM
531	A few times Valley administration has tried to get lots of students to do things collectively on our Chromebooks, and it never works because it slows down the internet.	4/15/2018 6:43 PM
532	Not use as much technology and use more student interaction, than being in a group on a computer and not really talking.	4/15/2018 6:41 PM
533	No one uses canvas	4/15/2018 6:41 PM

Tech Survey for Students 2018

534	I would say to use the best platform for each class in order to get the most out of our education. Even if that means everything isn't centrally located, I think getting the best education possible to the students is the most important thing.	4/15/2018 6:40 PM
535	Chromebooks are simply unusable, I bring my own laptop so I can get work done.	4/15/2018 6:40 PM
536	Well, some of the Chromebooks are hard to work with because of the fact that we don't have a mouse.	4/15/2018 6:39 PM
537	Canvas is an enigma. Finding files and assignments can be befuddling because there are at least three different places where said files and assignments could be and there's no common setup for it. I wish I could still access the H-Drive from home. I know that the district is trying to get rid of it, and while I think that's a mistake, I can't stop that. But I want to download files from my H-Drive to my personal computer, but the data takes up too much space for a USB drive. Some of my programming files can't be sent over email, either, and those are the main things I would want out of my H-Drive anyway.	4/15/2018 6:39 PM
538	Informing the students why some websites are restricted even though they're perfectly fine.	4/15/2018 6:38 PM
539	Less paper homework	4/15/2018 6:38 PM
540	Extra chrome book chargers or charging stations	4/15/2018 6:37 PM
541	I feel google classroom is very useful. Two of my classes are using it and I love it.	4/15/2018 6:37 PM
542	limit the amount of technology that's constantly bombarded onto us, students enjoy doing stuff off their computers too so that way they don't strain their eyes or dread getting onto their chromebooks--also maybe teach more teachers about how canvas works or just switch back to google classroom; ask the teachers opinions on this too not just the students.	4/15/2018 6:37 PM
543	Making the wifi network more reliable so students don't have to wait for it to work. Students can't do their work if the wifi network always has connectivity problems. All teachers should use canvas regularly. Some of my teachers don't know how to use it/don't want to use it which makes it harder for my peers and me.	4/15/2018 6:37 PM
544	Sometimes Chromebook don't allow for some necessary things--Somtimes research is blocked	4/15/2018 6:36 PM
545	Turn off Lanschool because there is really no point to it.	4/15/2018 6:36 PM
546	We should be able to get a different case for our chromebook to make them more fun to use!	4/15/2018 6:36 PM
547	Nothing	4/15/2018 6:35 PM
548	Do not switch everything to canvas. A lot of the stuff on it is useful and helpful but for classes like math and shop classes onna personal level it is not helpful and almost distracting. Balance canvas along with paper stuff	4/15/2018 6:35 PM
549	NOT using canvas.	4/15/2018 6:35 PM
550	Not much	4/15/2018 6:35 PM
551	Not using canvas using google classroom.	4/15/2018 6:35 PM
552	Take out Canvas and Encore	4/15/2018 6:34 PM
553	Keeping everything in one place, not a fan of canvas. Prefer google classroom.	4/15/2018 6:34 PM
554	Stop family connections	4/15/2018 6:34 PM
555	Ok	4/15/2018 6:34 PM
556	Get rid of 1:1 Chromebook ratio. The Chromebooks are garbage. Also, canvas is awful and hard to use. Please switch back to Google classroom.	4/15/2018 6:34 PM
557	None	4/15/2018 6:34 PM
558	No more chrome books	4/15/2018 6:34 PM
